John Milton was one of the famous poets in English Literature. He was born on December 9, 1608 in London. At the age of 17 he went to Cambridge University for study and after seven years of study he took M.A. degree from that University. The next six years he spent at Horton in unprofessional study. In 1638 he started his foreign tour. In 1640 he married Mary Powel a young girl of seventeen. But his wife died in 1652 leaving him with three daughters. So, he married second time in 1656 but two years after this second wife also died. Of all his works 'Paradise Lost' is said to be his greatest. He finished composing this epic in 1664. But it was published three years later. By this time he lost his eye sight. At the age of 66, he died on November 8, 1674.

**Canadian English** Aleksandra Skorupska, 2013-09-30 Bachelor Thesis from the year 2013 in the subject English Language and Literature Studies Linguistics grade 14 20 course Variation in Canadian English spelling language English abstract This paper addresses the issue of variation in Canadian English spelling which is a blend of British and American spelling conventions The study combines theoretical and practical work The theoretical part briefly defines the concept of Canadian English in general that is its historical background and characteristics Moreover it describes some major spelling phenomena in Canadian English and examines the ways in which several Canadian style guides deal with the variation in Canadian English spelling In turn the practical part of the present paper deals with the actual spelling practices Based on the investigation of the spelling practices of Canadian journalists the research attempts to identify whether the newspapers follow any prescriptive spelling norms The corpus for the analysis was extracted from a sample of articles taken from the online editions of three national Canadian dailies 1 The Globe and Mail 2 Metro and 3 National Post The research gathered 277 tokens of words where spelling varies between British and American English The Role of Reading in First and Second Language Acquisition Viktor Kocsis, 2013-07-22 Seminar paper from the year 2012 in the subject Didactics for the subject English Pedagogy Literature Studies grade Sehr Gut University of Graz Institut f r Anglistik course Linguistics Seminar Beyond Interpretation Cognitive and Psycholinguistic Aspects of Reading Research language English abstract A person s future opportunities for success and prosperity will be even more entwined with skilled reading abilities It is therefore an important societal responsibility to offer every person the opportunity to become a skilled reader and in many cases this means becoming a skilled L2 reader GRABE 2009 6 As GRABE reveals with his statement reading has become an indispensable language skill not only in an individual s mother tongue but preferably also in its acquired foreign language without which it is difficult if not impossible to make career nowadays Wherever we go outside our homes we will see and read print even so in more deprived areas such as on hiking trails where instead of advertising wallpapers we are likely to encounter signposts that guide us Since information transfer is reserved to both oral and written communication in modern society reading remains the only option to decode writing However developing reading skills is more than just improving one s word recognition and decoding abilities GRABE points out that most words build phonological activation prior to lexical access 2009 24 in the word recognition process that combines the interactive areas of orthography phonology and meaning This characteristic of reading allows for unconscious pronunciation drilling and training even though it can be assumed that readers will occasionally consciously check the pronunciation of certain unfamiliar words Whether or not supported by conscious learning reading seemingly prepares learners for oral communication by maintaining constant phonological

activation Moreover recognized words in the reading process are supposed to transmit some activation energy to their semantic neighbours in the lexical network when they are accessed GRABE 2009 25 26 Known as the notion of spreading activation GRABE 2009 25 this phenomenon suggests that reading establishes a cognitive network of connotations that learners acquire to broaden their lexis for idiomatic application in communicative contexts As one may quickly realize reading involves learning about both language and content which is why it simply must be part of a regular English lesson Therefore the research question addressed in this paper is what English language teachers should keep in mind when developing reading tasks for both First L1 and Second Language Learners L2

A Pragmatic Analysis* Lisa Thöne,2024-05-28 Seminar paper from the year 2023 in the subject American Studies Linguistics grade 1 7 University of Paderborn Institut für Anglistik und Amerikanistik course Historical Pragmatics language English abstract This paper fills a gap in historical pragmatic research by examining the functions of the affirmative particles yea and AY in Nineteenth century American English The paper sheds light on usages and functions of yea and AY During Late Modern English for instance people have often prescribed

communicative conventions that are associated with a particular educated and religious lifestyle that was desirable at that time at must be affirmed to Therefore tracing back the different functions but also forms of affirmative speech acts is of great importance However historical research on affirmative speech acts especially on formal aspects concerning this type of speech act is thin Culpeper 2018 is the only scholar who researched affirmative particles in Early Modern English particles that operate as key elements in affirmative speech acts since they convey agreement faster and more unambiguously than any other element in an affirmative speech act To give an example Culpeper showed among other things that during Early Modern English yea was part of a Germanic speech pattern being used after grammatically positively formulated questions
