## **Along Current News Political Report:**

News and Politics Stephen Cushion, 2015-03-24 News and Politics critically examines television news bulletins still the primary source of information for most people and asks whether the wider pace and immediacy of 24 hour news culture has influenced their format and style over time Drawing on the concepts of mediatization and journalistic interventionism Stephen Cushion empirically traces the shift from edited to live reporting from a cross national perspective focussing on the two way convention in political coverage and the more interpretive approach to journalism it promotes Challenging prevailing academic wisdom Cushion argues that the mediatization of news does not necessarily reflect a commercial logic or a lowering of journalism standards In particular the rise of live two ways can potentially enhance viewers understanding of public affairs moving reporters beyond their visual backdrops and reliance on political soundbites by asking journalists to scrutinize the actions of political elites interpret competing source claims and to explain the broader context to everyday stories Considering the future of 24 hour news a final discussion asks whether new content and social media platforms including Twitter and Buzzfeed enhance or weaken democratic culture This timely analysis of News and Politics is ideal for students of political communication and journalism studies as well as communication studies media studies and political science

**News Letter** United States.

Department of State,1965 Television and Presidential Power in Putin's Russia Tina Burrett,2010-12-14 As a new president takes power in Russia this book provides an analysis of the changing relationship between control of Russian television media and presidential power during the tenure of President Vladimir Putin It argues that the conflicts within Russia's political and economic elites and President Putin's attempts to rebuild the Russian state after its fragmentation during the Yeltsin administration are the most significant causes of changes in Russian media Tina Burrett demonstrates that President Putin sought to increase state control over television as part of a larger programme aimed at strengthening the power of the state and the position of the presidency at its apex and that such control over the media was instrumental to the success of the president's wider systemic changes that have redefined the Russian polity The book also highlights the ways in which oligarchic media owners in Russia used television for their own political purposes and that media manipulation was not the exclusive preserve of the Kremlin but a common pattern of behaviour in elite struggles in the post Soviet era Basing its analysis predominately on interviews with key players in the Moscow media and political elites and on secondary sources drawn from the Russian and Western media the book examines broad themes that have been the subject of constant media interest and have relevance beyond the confines of Russian politics
