Along Came Galileo Jeanne Bendick,1999-06-01 Story of a man who had the courage to ask questions **Letters to Vanessa** Jeremy Hayward,1997-09-02 The world we inhabit is enchanted every tree rock and star and even empty space itself is teeming with living energy and awareness And it s all nearer to us than our own breath Why then can t we see it Because according to Jeremy Hayward we are taught not to And because our cultural conditioning keeps us in denial about the fact that a strictly scientific worldview provides only a partial and unsatisfactory view of reality Letters to Vanessa is the guidebook for a generation caught in the crunch between the hard realities of science and the genuine yearning for an experience of the sacred In a series of letters addressed to his teenage daughter Dr Hayward points the way past the limits of science and shows how we can connect with the magical multidimensional universe of soul Along the way he presents the most recent findings of neuroscience cognitive psychology new biology and physics in a most engaging and understandable way He also provides practical meditation instructions that will enable everyone to reconnect with the joyous reality of ordinary life *Along Came A Gardener* Diana Stevan,2025-02-15 Are you looking for clarity healing or simply a gentler way to grow through life s challenges In *Along Came a Gardener* therapist and author Diana Stevan draws from over 25 years of experience in mental health care to share moving real life stories from the frontlines of emotional struggle and resilience Blending memoir with self help she weaves in wisdom from nature and gardening showing how the lessons we find in soil seasons and tending to plants can also guide us toward inner peace Insightful honest and full of heart this book is for anyone seeking inspiration emotional tools and a deeper connection to life s natural rhythms **The Holborn Series of Reading Books.
