## Alvar Aalto Second Nature:

Alvar Aalto Jochen Eisenbrand, Mateo Kries, 2014-10 Der Architekt und Designer Alvar Aalto 1898 1976 war einer der wichtigsten Vertreter organischer Gestaltung im 20. Jahrhundert. Seine Architektur fasziniert bis heute durch natürliche Materialien und skulpturale geschwungene Formen. Für das Sanatorium in Paimio entwarf Aalto 1932 den ersten Freischwinger aus Holz, seine Savoy Vase 1936 gilt heute als das Symbol finnischen Designs. Schlechthin die Ausstellung gibt einen umfassenden Einblick in das Werk Aaltos präsentiert seine wichtigsten Bauten Möbeln und Leuchten und geht den Inspirationen nach, die sein Werk prägen. Schlüsselthemen sind Aaltos Dialog mit wichtigen Künstlern wie Hans Arp, Alexander Calder oder Laszlo Moholy Nagy, seine intensiven internationalen Verbindungen, seine Auseinandersetzung mit Fragen des rationalen Bauens, aber auch seine Suche nach einer Gestaltung, die stets den Menschen in den Mittelpunkt stellt. Exhibition Vitra Design Museum Weil am Rhein, Germany, 27.09.2014 - 03.01.2015 *Alvar Aalto and Urban Design* Robert Cody, Angela Amoia, 2025-10-24 This book provides a fresh look at Alvar Aalto's regional and community planning work, particularly the ways in which he incorporated sustainability, resiliency, energy, and health, and examines how contemporary architects and planners can learn from this approach for the betterment of 21st century urban design and our future cities. The Alvar Aalto Atelier planned and promoted regional development that combined ecological features, considered density, and offered a framework for informality, including flexible, adaptable infrastructures with physical plans integrating communities with nature. These plans were largely suburban and contained vital lessons on how to deal with sprawl, traffic, landscape, energy, labor, and industry. This book analyzes letters, writings, and drawings not seen outside the Alvar Aalto Foundation to review alternative ways to examine suburban landscapes and urban typologies through sustainability, ecology, and use of digital technologies. This is an essential read for all those interested in the urban design work of Alvar Aalto. Written in an accessible way for those new to the work of Aalto, Architecture and Urban Design students of all levels will also find this a helpful guide on ecologically and socially responsible design. **Metamorphism** Ákos Moravánszky, 2017-11-20 Materiality is a recurring and central issue in architecture. This book explains how materials are constructed, how they become cultural substances. Metamorphism investigates the complex relationship between natural materials and technology, science, and sensuality. Gottfried Semper 1803-1879 made the notion of Stoffwechsel the key element of his theory. With this concept, he intended to explain how a structural form, originally bound to a method of processing, is transferred from one material to another, liberated from its original function. For the first time, the book investigates the subject from a historic point of view, whilst reflecting on current interdisciplinary research. Examples from Aalto to Zumthor illustrate the specific aspects of historic and contemporary material concepts. Unfolding the Public Art at Aalto University Outi Turpeinen, What is the role of a public art collection in a university context? How does art impact teaching, research, and well-being? The art works in the Aalto University Campus buildings and outside areas form a unique and inspiring art collection. The art works focus on societally
