*Building Block* Prentice-Hall Staff, 1994      *Answers* Alan Kohls, 2015-07-31 Who is Andrew Elric and what's he doing here? Says he's here with answers. As Andrew would explain it: We live our lives shrouded with mysteries. We're compelled to show faith in explanations that we really don't believe in. The origins of our being, the nature and existence of God, are we alone in the universe? Less weighty issues as well as stuff we'd just like to know: Who really shot Kennedy? What happened to Jimmy Hoffa? You think about it and know there really are answers to all of it, but you don't have access to them. I've got those answers and more importantly, proof for all of it. Some of it you can hold in your hand. You follow the news, you know this place is going to blow. I'm here to try and stop it. Religion, race, nationalism. We all come from the same place. But the world has suffered through too many charlatans and false prophets. I'm going to use these proofs to get you savages to settle down. Andrew has recruited renowned attorney, author, and sports agent Aron Samuelson to help him get the word out. Aron, in the throes of a midlife crisis, is looking for the next big thing in his life. As they say, be careful what you wish for.

**We Are Agora** Byron Reese, 2023-12-12. Discover a groundbreaking new way of thinking about life, society, and the future of our species that bridges science and human history. Could humans unknowingly be a part of a larger superorganism, one with its own motivations and goals, one that is alive and conscious and has the power to shape the future of our species? This is the fascinating theory from author and futurist Byron Reese who calls this human superorganism Agora. In *We Are Agora*, Reese starts by asking the question: What is life and how did it form? From there, he looks at how multicellular life came about, how consciousness emerged, and how other superorganisms in nature have formed. Then, he poses eight big questions based on the Agora theory, including: If ants have colonies, bees have hives, and we have our bodies, how does Agora manifest itself? Does it have a body? Can Agora explain things that happen that are both under our control and near universally undesirable, such as war? How can Agora theory explain long-term progress we've made in the world? In this unique and ambitious work that spans all of human history and looks boldly into its future, Reese melds science and history to look at the human species from a fresh new perspective. Told with his characteristic wit and compulsive readability, *We Are Agora* will give readers a better understanding of where we've been, where we're going, and how our fates are intertwined.
