ECGBL2014-8th European Conference on Games Based Learning Carsten Busch, 2014-11-11 Failings of the International Court of Justice A. Mark Weisburd, 2015-11-20 Failings of the International Court of Justice critically examines the jurisprudence of the International Court of Justice Even though the legal instrument that establishes the Court provides that its judgments have no formal precedential value those judgments are treated as authoritative by international lawyers throughout the world In this book A Mark Weisburd argues that the Court's decisions are in a large minority of cases poorly reasoned and doubtful as a matter of law and therefore ought not to be accorded the deference they receive The book seeks to demonstrate its thesis by a careful review of the Court's errors It begins with an examination of the law that created and empowered the Court It then describes the body of law upon which the Court was intended to base its decisions and the mistakes in the arguments supporting the Court's drawing legal rules from other sources The book goes on to analyze in detail cases in which the Court has made serious legal errors first addressing procedural errors then turning to mistakes in the application of substantive international law The book closes with a quantitative summing up of the Court's performance and a tentative explanation for its relatively disappointing record **Palmer's Index to "The Times" Newspaper**, 1888

Palmer's Index to the Times Newspaper, 1899 **Sessional Papers - Legislature of the Province of Ontario** Ontario. Legislative Assembly, 1899 **Sessional Papers** Canada. The Asset Pricing Factor* Mark Matern, 2017-08-09 Bachelor Thesis from the year 2015 in the subject Business economics General grade 1 3 University of Mannheim language English abstract This term paper deals with the strategy

called quality minus junk QMJ The reader will see that both abnormal returns characterized as alpha and excess returns characterized as returns above the risk free rate are consistently high for any of the three major asset pricing models This particular thesis is going to go through the main findings and observations that Asness Frazzini and Pedersen have made in their research on the QMJ factor and is also going to extend on some further examination of QMJ The upcoming chapter briefly discusses the reason behind using the Gordon Growth Model as the basis of the quality score and the four main quality measures which were used in the design of the QMJ strategy Chapters 3 4 and 5 retest the findings by using three years of additional data and its most recent updates in May 2015 In Chapter 3 are tests which were performed for different levels of quality Chapter 4 will focus on the role of the QMJ factor in pricing other risk factors and Chapter 5 analyzes QMJ for different economic environments Therefore new aspects will be added to the analysis In Chapter 6 the readers will see how the QMJ strategy has performed during different levels of the sentiment index and the last Chapter deals with the Q factor model to see how well it explains the QMJ factor performance There are three main questions that are pursued and dealt with in this thesis 1 What has changed in terms of the main findings for the QMJ strategy with the new and updated data 2 The price of quality and the premium paid for higher quality constantly changes especially for different market cycles and environments It would therefore be interesting to see what one of the most popular measures of market sentiment the sentiment index by Baker and Wurgler can tell us about the QMJ factor and vice versa And the last question Is there any potential relation between the two
