Magic Curses and Hexes      **Wormwood** Marie Corelli, 2004-04-08 Though disparaged by literary critics of her day Marie Corelli was one of the most popular novelists of the late Victorian and Edwardian periods. *Wormwood* 1890 is a lurid tale of unrequited love, betrayal, vengeance, murder, suicide, and addiction. The novel recounts the degeneration of Gaston Beauvais, a promising young Parisian man who betrayed his fiancée and his best friend falls prey to the seductive powers of absinthe. The impact of Gaston's debauchery and addiction on himself, his family, and his friends is graphically recounted in this important contribution to the literature of fin de siècle decadence. This Broadview edition includes a critical introduction and a generous selection of contextualizing documents including excerpts from Corelli's writings on art and literature, nineteenth-century degeneration theories, and clinical and artistic views on absinthe.      [Absinthe, the Cocaine of the Nineteenth Century](#) Doris Lanier, 1995 Absinthe produced a sense of euphoria similar to the effect of cocaine and opium but was addictive and caused a rapid loss of mental and physical faculties. Despite that Picasso, Manet, Rimbaud, and Wilde were among those devoted to the green fairy and produced writings and art influenced by absinthe.      **Time, Astronomy, and**

**Calendars in the Jewish Tradition** Sacha Stern, Charles Burnett, 2013-11-07 The study of time, astronomy, and calendars has been closely intertwined in the history of Western culture and more particularly Jewish tradition. Jewish interest in astronomy was fostered by the Jewish calendar, which was based on the courses of the sun and the moon, whilst astronomy in turn led to a better understanding of how time should be reckoned. *Time, Astronomy, and Calendars in the Jewish Tradition*, edited by Sacha Stern and Charles Burnett, presents a wide selection of original research in this multi-disciplinary field, ranging from Antiquity to the later Middle Ages. Its variety of approaches and sub-themes reflects the relevance of astronomy and calendars to many aspects of Jewish and more generally ancient and medieval culture and social history. Contributors include Jonathan Ben Dov, Reimund Leicht, Marina Rustow, Francois de Blois, Raymond Mercier, Philipp Nothaft, Josefinia Rodriguez, Arribas, Ilana Wartenberg, Israel Sandman, Justine Isserles, Anne C. Kineret, Sittig, Katharina Keim, and Sacha Stern.

Ernest Alfred Wallis Budge, 1913      **Nature's Pharmacopeia** Dan Choffnes, 2016-08-09 This beautifully illustrated, elegantly written textbook pairs the best research on the biochemical properties and physiological effects of medicinal plants with a fascinating history of their use throughout human civilization, revealing the influence of nature's pharmacopeia on art, war, conquest, and law. By chronicling the ways in which humans have cultivated plant species, extracted their active chemical ingredients, and investigated their effects on the body over time, *Nature's Pharmacopeia* also builds an unparalleled portrait of these special herbs as they transitioned from wild flora and botanical curiosities to commodities and potent drugs. The

book opens with an overview of the use of medicinal plants in the traditional practices and indigenous belief systems of people in the Americas Africa Asia and ancient Europe It then connects medicinal plants to the growth of scientific medicine in the West Subsequent chapters cover the regulation of drugs the use of powerful plant chemicals such as cocaine nicotine and caffeine in various medical settings and the application of biomedicine s intellectual frameworks to the manufacture of novel drugs from ancient treatments Geared toward nonspecialists this text fosters a deep appreciation of the complex chemistry and cultural resonance of herbal medicine while suggesting how we may further tap the vast repositories of the world s herbal knowledge to create new pharmaceuticals     **The Bernhardt Hamlet** Gerda Taranow,1996 Critics regarded Sarah Bernhardt s interpretation of Hamlet in 1899 as the revelation of Shakespeare s tragedy in France The Bernhardt Hamlet is the first to investigate that production and to explain its context and its impact upon the cultural life of the time Bernhardt s most significant innovation was her rejection of romantic sensibility in favor of the revenge tradition In assuming a male role she remained within the theatrical tradition of travesti that came to full fruition in the nineteenth century Classically trained the 54 year old Bernhardt refashioned the Hamlet inheritance with insight vigor and originality
