Transactions of the American Gynecological and Obstetrical Society ,2000 **Bridges, Pathways and Transitions** Mahsood Shah, Gail Whiteford, 2016-10-04 Bridges Pathways and Transitions International Innovations in Widening Participation shows that widening participation initiatives and policies have had a profound impact on improving access to higher education to historically marginalized groups of students from diverse socioeconomic and cultural backgrounds The research presented provides a source of inspiration to students who are navigating disadvantage to succeed in higher education against the odds There are stories of success in difficult circumstances revealing the resilience and determination of individuals and collectives to fight for a place in higher education to improve chances for securing social mobility for next generations The book also reveals that more work and policy interventions are needed to further equalize the playing field between social groups Governments need to address the entrenched structural inequalities particularly the effects of poverty that prevent more academically able disadvantaged students from participating in higher education on the basis of the

circumstances of their birth Across the globe social reproduction is far more likely than social mobility because of policies and practices that continue to protect the privilege of those in the middle and top of social structures With the gap between rich and poor widening at a rate previously unseen we need radical policies to equalize the playing field in fundamental ways Focuses on collaborations with schools families and communities Highlights tools and methods to aid in the creation of pathways bridging initiatives into higher education Includes case studies that show how students are supported during the transition into high education systems
