The Art of Record Production Simon Zagorski-Thomas, Katia Isakoff, Serge Lacasse, Sophie Stévanec, 2016-04-01 The playback of recordings is the primary means of experiencing music in contemporary society and in recent years classical musicologists and popular music theorists have begun to examine the ways in which the production of recordings affects not just the sound of the final product but also musical aesthetics more generally Record production can indeed be treated as part of the creative process of composition At the same time training in the use of these forms of technology has moved from an apprentice based system into university education Musical education and music research are thus intersecting to produce a new academic field the history and analysis of the production of recorded music This book is designed as a general introductory reader a text book for undergraduate degree courses studying the creative processes involved in the production of recorded music The aim is to introduce students to the variety of approaches and methodologies that are currently being employed by scholars in this field The book is divided into three sections covering historical approaches theoretical approaches and case studies and practice There are also three interludes of commentary on the academic contributions from leading record producers and other industry professionals This collection gives students and scholars a broad overview of the way in which academics from the analytical and practice based areas of the university system can be brought together with industry professionals to explore the ways in which this new academic field should progress

Coproduction Robert Wilshire, Christopher Johnson, 2022-05-30 Coproduction is dedicated specifically to the study of an emerging field in music production musicology It explores the limits of what this field might be from the workings of a few individuals producing music together in the studio to vast contributions of whole societies producing popular music Taking a wide ranging approach to examining the field Coproduction looks through multiple formats including essays interviews and case studies with analysis and commentary of coproduction experiences at Abbey Road studios It does so by examining multiple

disciplines from social science and coproduction in mental health to philosophy and mathematics At its extremes which is the extreme middle and not the blunt cutting edge the authors attempt to produce every song in their development of an all encompassing pop music concept peculiarly called Toast theory In attempting to unite the pragmatic collaborative patterns of Vera John Steiner with philosophical postmodernist concepts of connection Coproduction has something to offer readers interested in the traditional workings of teams of producers as well as those seeking to understand the wider philosophy of collaboration in music production

Kick it Matt Brennan, 2020 The drum kit has provided the pulse of popular music from before the dawn of jazz up to the present day pop charts *Kick It* a provocative social history of the instrument looks closely at key innovators in the development of the drum kit inventors and manufacturers like the Ludwig and Zildjian dynasties jazz icons like Gene Krupa and Max Roach rock stars from Ringo Starr to Keith Moon and popular artists who haven't always got their dues as drummers such as Karen Carpenter and J Dilla Tackling the history of race relations global migration and the changing tension between high and low culture author Matt Brennan makes the case for the drum kit's role as one of the most transformative musical inventions of the modern era *Kick It* shows how the drum kit and drummers helped change modern music and society as a whole from the bottom up
