This book provides insights into the development toward narrative competence and illustrates multifaceted patterns in the developing capacity to create globally coherent narrative texts. The methodology draws from both a psycholinguistic approach to narrative development, systemic functional linguistics and writing pedagogy theory. This book extends previous studies on narrative writing development since it provides a multifaceted window into the progression of narrative development from elementary school through secondary school and university to life as a professional journalist and writer. It also shows how narrative writing development is related to the cognitive, emotional, psychological and social development of the individual.
