Per the *Publication Manual of the American Psychological Association* (APA) (6<sup>th</sup> edition), double-space the entire paper, except with charts or tables. Do not add any extra spacing, except with page breaks between chapters (for very long papers), between the cover and first page, and between the last page and the reference section. Use Times Roman, 12-point font. Do not use bold except for headings. Margins are set for one inch on top, bottom, and sides. The header on the cover page is different from the headers on the rest of the paper. Only the cover page header includes the words *Running head*. The header is flush left but the page numbers are flush right. Make sure the header font is the same as the rest of the paper. Handouts on how to format the cover page (as well as other handouts) are available on the Writing Center's Resources for Writers web page: <http://info.csp.edu/en/Academic-Resources/WritingCenter/Resources-for-Writers/>, and a video demonstration is available on the Writing Center's Instructional Videos web page: <http://info.csp.edu/en/Academic-Resources/WritingCenter/Instructional-Videos/>.

**Note:** Center the following information in the middle of the page: title, your name, school name, course title and section, the instructor's name, and the date. APA only requires the title, author's name, and institutional affiliation, but most CSP instructors ask for the date and course information too—check with the instructor or syllabus. Do not use contractions in formal papers—either in the title or the body of the paper ("do not" rather than "don't"). Titles should include no more than 12 words. Titles use upper and lowercase letters.

**Note:** This paper reflects the sixth edition of the *Publication Manual of the American Psychological Association*. Last updated August 9, 2013.

Seward,1999 With SF Writer 2 e the authors did more than offer a revision they created a new kind of handbook SF Writer 2 e takes the writer in its title seriously From its opening paragraph to its concluding almanac the handbook examines the writing process today from the perspective of writers young and old learning new roles and reaching new audiences The style of SF Writer is energetic and witty the advice fresh and contemporary the design ground breaking Almost every major element of SF Writer is new or significantly revised beginning with an organization that removes the barriers between writing and research While most handbooks put the chapters on research in back of the book SF Writer locates these essential strategies up front in Part II Thinking and Research This new arrangement helps writers appreciate better the connection between college research and other essential activities such as Reading Critically and Writing Persuasively also examined in Part II Equally fresh is Part I Working as a Writer which presents writing as a dynamic activity grounded in practical choices and familiar genres Writer also includes an innovative chapter on Evaluating Writing No other handbook in SF Writer's field covers this sensitive but important topic SF Writer breaks new ground too in expanding its coverage of document design and writing for the Web A full section is now devoted to these subjects featuring fresh material and rich illustrations Uniquely SF Writer treats the design of print and electronic documents as a process like writing itself SF Writer embodies these design principals in a volume full of carefully chosen images and photographs from section dividers that showcase the work of writers to an almanac featuring timelines of notable texts and authors It's not an accident that SF Writer looks exceptionally fresh and contemporary In this edition the media is part of the message Yet SF Writer doesn't

forget its responsibilities as a guide to grammar mechanics usage and documentation Its coverage in these areas is unsurpassed Yet even here new themes are sounded For example the model MLA paper is by a student teacher wrestling with a state mandate for competency testing undergraduate research in psychology So both papers demonstrate that undergraduates today really can do serious work as writers and reach live audiences *The Prentice Hall Guide for College Writers* Stephen Reid,1999-08 Practicing psychologists as well as interns and graduate students in psychology need a broad array of diagnostic techniques and clinical assessment skills for successful practice in medical and surgical hospital settings A first of its kind text *Psychological Assessment in Medical Settings* discusses scientifically valid assessment approaches with 41 case studies that illuminate a variety of issues and techniques and detailed practical guidelines for clinicians The authors untangle the complexities of today s intense healthcare market in which psychologists must possess a comprehensive knowledge of scientifically valid diagnostic techniques and acute skill in directing patients to the appropriate care site Their hands on guidebook equips professionals with skills to enhance their practice through use of accurate clinical assessment tools that can also be used to document treatment effectiveness *The Prentice Hall Guide for Student Writers* Stephen Reid,Enid Gossin,Susan Stancer,2002 A comprehensive guide to writing designed for introductory composition courses This all in one text offers hallmark coverage of the purposes of writing focusing on the importance of a writer s research critical reading skills the ability to organize ideas and a strategy to assess and develop rhetorical contexts While the guide emphasizes traditional writing purpose and process the authors also consider the technological changes that influence and enhance contemporary writing including expanded coverage of researching evaluating and documenting Internet sources The first Canadian edition not only highlights good writing by Canadians but also provides further insights into Canadian culture and ideas
