# Operator's Manual

## Crane Serial Number

The crane serial number is written on the Crane Rating Manual located in the lower right interior of the operator's cab. The crane serial number should always be furnished when ordering parts for the crane, or when corresponding with the distributor or factory regarding the crane. The serial number is the only method the distributor or factory has of ensuring that the correct parts will be furnished.

In the event the serial number can not be found on the Crane Rating Manual, the number is stamped on top of the front outrigger box on the right side of the carrier and on the right side of the upper frame just below the boom hoist cylinder lug. This number can then be used to identify the crane.
