Inside Insurgency Claire Metelits, 2010 Through interviews and on the ground research this book provides a new explanation of the nature of insurgent group behavior Through case studies of the SPLA FARC and PKK it offers an intimate understanding of modern day insurgent terrorist groups and their tactics as well as an explanation of the changing behavior of insurgent groups toward the civilians they claim to represent Who Are the Insurgents? Claire Cutler, 2014 This path breaking collection analyzes the dialectic between legal and constitutional innovations intended to inscribe corporate power and market disciplines in world order and the potential for challenges and alternative frameworks of governance to emerge It provides a comprehensive approach to neoliberal constitutionalism and regulation and limits to policy autonomy of states and how this disciplines populations according to the intensifying demands of corporations and market forces in global market civilization Contributors examine global and local public policy challenges and consider if the ongoing crises of capitalism and world order offer states and societies opportunities to challenge this loss of policy autonomy and potentially to refashion world order Integrating approaches to governance and world order from both leading and emerging scholars this is an innovative indispensable source for policymakers civil society organizations professionals and students in law politics economics sociology philosophy and international relations **Citizenship Regimes, Law, and Belonging** Anupama Roy, 2022 This work analyzes the contemporary landscape of citizenship in India as dominated by the Citizenship Amendment Act CAA 2019 and the National Register of Citizens NRC Understanding Insurgent Resilience Andrew Henshaw, 2020-07-30 This book examines terrorist and insurgent organisations and seeks to understand how such groups persist for so long while introducing a new strategic doctrine for countering these organisations The work discusses whether familial or meritocratic insurgencies are more resilient to counterinsurgency pressures It argues that it is not the type of organization that determines resilience but rather the efficiency functions of social capital and trust which have different natures and forms within them It finds that while familial insurgencies can challenge incumbents from the start they weaken over time whereas meritocracies will generally strengthen The book examines four of the most enduring and lethal insurgent organizations the Haqqani Network in Afghanistan Lashkar e Taiba in Pakistan Jemaah Islamiyah in Indonesia and the Abu Sayyaf in the Philippines The author breaks down each group into its formative strengths and vulnerabilities and presents a bespoke model of strategic counterintelligence that can be used to manipulate degrade and destroy each organization This book will be of much interest to students of counterinsurgency terrorism intelligence security and defence studies in general *Journals of the House of Commons of the Dominion of Canada* Canada.
