## AP Physics Lab #10 – Work & Power Lab

**Purpose/Problem:** To determine the work and power done by a hanging mass pulling a cart. Using this information you will then determine what change is needed to produce that a set displacement using a set time.

**Subject(s):** Physics (Work, Kinetics, Energy, Dynamics)

**Experimental Procedure:** This experiment has portions with direct questions on the operation of your procedure.

When using graphs of data generated by an online data site you will need to include what tools and process being applied to that information to get answers.

While thinking of your procedure, consider the following materials you have and the procedure used for future experiments to better help you collect accurate data.

**Observations & Data:** Your AP/IB physics textbook article, this will be given along with changes to collect data, you may want multiple trials to get the best possible average measurement. Below table data format that will not take too much data to provide.

Below is an example of a chart generated using your computer program (your data collection).
