

Preparing a Journal Article Critique

I. What is an article critique?

- A critical analysis of a study published in a peer-reviewed journal.

II. How do I format an article review?

- Format and organization of the critique varies according to the professor's preference. Review the assignment description in the course syllabus or ask the professor for formatting guidelines.

III. What does an article critique include?

A) A citation of the reviewed article in APA format

Example:

Mithaug, D. E. & Mar, D. K. (1980). The relation between choosing and working prevocational tasks in two severely retarded young adults. *Journal of Applied Behavior Analysis*, 13, 177-182.

B) A one-paragraph summary of the article

- Fewer than 200 words
- Briefly describe experimental question (1 sentence)
- Provide concise description of the methods used (2-6 sentences)
- Discuss results/findings (2 sentences)

C) A description of the study's participants

- Include number of participants/sample size/number of groups used
- Provide diagnoses or pertinent characteristics of participants
- Briefly describe participant selection & assignment to condition(s)

D) Identification and description of the relationship between the independent and dependent variables within the study

- Define independent variable(s)
- Define dependent variable(s)
- Discuss if a functional relationship exists between the independent and dependent variables
- Discuss possible confounding variables within the study

E) A description of the research design

- Identify the design as a group- or single-subject study
- Describe the experimental design (e.g., ABA reversal design, alternating treatment design, or multiple baseline design)

F) Article strengths & weaknesses (Helpful questions to ask yourself while evaluating the article's 4 main sections)

Research Methods, Statistics, and Applications Kathryn A. Adams,Eva K. Lawrence,2018-02-26 One of the greatest strengths of this text is the consistent integration of research methods and statistics so that students can better understand how the research process requires the combination of these elements The end goal is to spark students interest in conducting research and to increase their ability to critically analyze it In the new second edition of the text Katherine Adams and Eva Lawrence have integrated additional information on online data collection and research methods additional coverage of regression and ANOVA and new examples to engage students [Engaging Undergraduates in Publishable Research: Best Practices](#) Traci A. Giuliano,Jeanine L. M. Skorinko,Marianne Fallon,2019-11-20 Although many articles and books have been written about conducting research with undergraduates there is a dearth of research on the process of publishing with undergraduates Thus in this research topic we assembled a collection of 43 articles from 98 researchers worldwide who are passionate about and have had success in publishing high quality peer reviewed journal articles with undergraduates The diverse articles represent a wide range of practices to help researchers publish with undergraduates including structuring the curriculum to promote undergraduate research and publication optimizing research experiences for undergraduates training students in implementing advanced techniques accessing special populations or conducting research in off campus settings addressing institutional and career challenges for faculty and increasing inclusion and diversity Each article provides a unique and diverse perspective that nevertheless resonates across contexts and situations We hope that the ideas models techniques and practices in these articles will motivate and inspire readers to begin continue or rethink how they engage undergraduates in publishable research we also hope to stimulate empirical and quantitative research on the effectiveness of these ideas models techniques and practices [Professional Writing in Speech-Language Pathology and Audiology, Fourth Edition](#) Robert Goldfarb,Yula C.
