Carty, 2012-05-01 Essentials of Public Speaking Robert I. Fulton, 2015-06-02 Excerpt from Essentials of Public Speaking For Secondary Schools The growth of interest in public

speaking in the secondary schools throughout the United States during the past decade has been phenomenal. The principal high schools and academies are not only supporting vigorous debating societies and oratorical associations but are engaging in friendly contests in debate and oratory with their rivals. This has led to a demand for systematic instruction in the fundamentals of good reading and good speaking and leading secondary schools recognizing this demand are establishing courses to that end. The aim of the authors of this volume is to meet this need to present sufficient instruction for practical purposes and not to overburden the student with too extended discussions of the philosophy of expression. It has been the endeavor to discuss simply and to the point the essential elements of good delivery to give short illustrations for applying the principles and then to provide whole selections for practice. We have tried so to simplify instruction that the average teacher who has been chosen to do this work whether he has had extended technical instruction or not shall be able to acquire sufficient skill from the discussions contained in these pages to become of material service to young students of public speaking. We have followed mainly our plan published in 1893 in the *Practical Elocution* and we trust that this never and simpler treatment designed for younger students will add interest to the study of the elements of effective delivery and inspire confidence in those who would acquire proficiency in the art of persuasive speaking.
