Darkness develops a new understanding of literary reading that in the wake of disasters like the Holocaust death remains a
premise of our experience rather than a future Challenging customary aesthetic assumptions that we write in order not to die
Sandor Goodhart suggests with Kafka we write to die Drawing upon analyses developed by Girard Foucault Blanchot and
Levinas along with examples from Homer to Beckett Möbian Nights proposes that all literature works autobiographically
which is to say in the wake of disaster with the credo I died therefore I am and for which the language of topology for

into its current form during the twentieth century This book analyses the role Jewish writers played in the process of its
creation and development The author provides a comprehensive overview bridging such seemingly disparate themes and
figures as the ghetto legends of the golem and their influence on both Frankenstein and robots the role of Jewish authors and
publishers in developing the first science fiction magazine in New York in the 1930s and their later contributions to new and
developing medial forms like comics and film Drawing on the historical context and the positions Jews held in the larger
cultural environment the author illustrates how themes and tropes in science fiction and fantasy relate back to the realities of
Jewish life in the face of global anti-Semitism the struggle to assimilate in America and the hope that was inspired by the
founding of Israel **Subject Catalog** Library of Congress, 1960 **Paperbound Book Guide for Colleges** ,1970
