House of Commons, 1922 *Politics and the American Future* John J. Harrigan, 1996 Written for the American Government course this book is a point of view book that addresses the

fundamental dilemma facing democratic societies This book takes all of the traditional topics covered by an American Government text and shows how they are influenced by the trade offs between efficacy and representativeness For example in the civil liberties chapter it is shown how the emergencies of the Civil War World War I and World War II led to curbs on civil liberties As the emergency of World War II ended and the fear of communism receded much of the 1960s and 1970s saw a relaxation in the demand for efficacy and a growing demand for representativeness Rivers of Blood Brenda K. Uekert,1995-07-17 Rivers of Blood offers a glimpse into the brutal world of state terrorism In this innovative study the author explores the strategies targets and motives of terror by reviewing the conditions surrounding government massacres By introducing an innovative typology of massacres and a classification of terror strategies the author develops a structural approach to the study of state terror thus challenging the viewpoint that state terrorism is a situational or reactionary phenomenon Case studies of government massacres such as those occurring in China Tiananmen Iraq Halabja and El Salvador San Salvador are included Each case study includes a discussion on the historical political and social climate preceding the massacre Rivers of Blood is a welcome addition to the literature on state terrorism *Government in Our Republic*.
