Working conditions for forensic scientists and technicians fluctuate. Laboratory assignments often provide clean, quiet, air-conditioned stations. Potential candidates must be adept in written and verbal communication. Participation in team-related activities requires an ability to work well with others. "Organizational ability, an eye for detail, and skill in interpreting scientific results are also important" (McClay, 2010, para. 4).

Educational requirements depend upon whether a person plans to become a forensic scientist or a forensic technician. A forensic scientist requires a
