In-text citations of electronic sources include the author's name and the year of publication. Unless the electronic source has visible numbered paragraphs, no paragraph number is necessary. The subsequent in-text citation of this source would be Seff et al. (1993) since the source has three authors.

When introducing sources, use the past tense or present perfect tense (e.g., has observed).

For a secondary source in which one author is being quoted or paraphrased in another author's work, name the original author's work, but cite the secondary source.

Authors are referred to by last name throughout the paper.

Within the text, capitalize the major words in a title of a book or article.

Use an ellipsis (...) when omitting original material.

When citing a print source, give the page number as well as the author's last name and year of publication.
