 Ruszkiewicz,Maxine Hairston,Daniel E. Seward,1999 With *SF Writer 2 e* the authors did more than offer a revision they
 created a new kind of handbook *SF Writer 2 e* takes the writer in its title seriously From its opening paragraph to its
 concluding almanac the handbook examines the writing process today from the perspective of writers young and old learning
 new roles and reaching new audiences The style of *SF Writer* is energetic and witty the advice fresh and contemporary the
 design ground breaking Almost every major element of *SF Writer* is new or significantly revised beginning with an
 organization that removes the barriers between writing and research While most handbooks put the chapters on research in
 back of the book *SF Writer* locates these essential strategies up front in Part II Thinking and Research This new arrangement
 helps writers appreciate better the connection between college research and other essential activities such as Reading
 Critically and Writing Persuasively also examined in Part II Equally fresh is Part I Working as a Writer which presents writing
 as a dynamic activity grounded in practical choices and familiar genres *Writer* also includes an innovative chapter on
 Evaluating Writing No other handbook in *SF Writer* s field covers this sensitive but important topic *SF Writer* breaks new
 ground too in expanding its coverage of document design and writing for the Web A full section is now devoted to these
 subjects featuring fresh material and rich illustrations Uniquely *SF Writer* treats the design of print and electronic
 documents as a process like writing itself *SF Writer* embodies these design principals in a volume full of carefully chosen
 images and photographs from section dividers that showcase the work of writers to an almanac featuring timelines of notable
 texts and authors It s not an accident that *SF Writer* looks exceptionally fresh and contemporary In this edition the media is
 part of the message Yet *SF Writer* doesn t forget its responsibilities as a guide to grammar mechanics usage and
 documentation Its coverage in these areas is unsurpassed Yet even here new themes are sounded For example the model
 MLA paper is by a student teacher wrestling with a state mandate for competency testing undergraduate research in
 psychology So both papers demonstrate that undergraduates today really can do serious work as writers and reach live
