Education in Singapore Yew-Jin Lee, 2022-04-06 This edited book is a comprehensive resource for understanding the history as well as the current status of educational practices in Singapore. It is a one-stop reference guide to education and educational issues concerns here. There are three sections. Part 1 provides a sectorial overview of how education has been organized in this country such as preschool, special needs, primary and secondary and adult education divisions. In Part 2 contributors critically delve into issues and policies that are pertinent to understanding education here such as underachievement, leadership, language education, assessment and meritocracy to question what Part 1 might have taken for granted. Part 3 contains the largest number of contributors because it offers a scholarly examination into specific subject histories. This section stands out because of the comparative rarity of its subject matter: history of Physical Education, Art, Music, Geography, Education etc in Singapore. *Urinalysis in the Dog and Cat* Dennis J. Numerous algorithms suggest possible pathways for the diagnosis and treatment of urinary disorders. This book is destined to be widely used in veterinary hospitals by seasoned and young attending veterinarians seeking to know more about urinalysis as well as by veterinary laboratory technicians.
