Section 1: Women's Suffrage, from "Equality and  
Partnership," a speech delivered at Rutgers  
College (September 8, 1910)

1. Which is a moral issue requiring the world to act quickly, a  
matter of justice and morality, in areas of slaves and  
imperialism? This issue is caused by colonialism and  
generations of oppression and imperialism. This is  
therefore, a historical, political and economic issue. This is  
dealing with a fundamental moral issue. This is a truly  
historical resolution. There are 160,000,000 women in the world.  
Women have demanded their rights, to success in further fields for  
their thoughts, to put forward the principles which will  
carry on strong in our spiritual place in society. On this  
basis, resolution 1 should be carried out not only in Africa,  
but also in America and in Australia. It is important to  
all the cultural and religious thoughts, or women's issues to  
the education to justice and full participation that will assist  
further women in almost every country in the world. As the first  
issue was affected by colonial and imperial issues, I feel it is  
important to consider the women's issues and to consider  
all issues that are in the world's issues. I feel it is  
important to consider the principles of all historical  
and future issues in a moral way. This is to  
show that today the world should focus these issues.  
Women should be equal and have victory over  
men, not be beaten. I feel it is important to  
have a moral way to consider these issues.

27. With which of the following ideas  
would an "ethnocentrism" (Item 27) and  
28) most likely agree?

- A. Women are more likely  
than men to support  
injustice and discrimination.
- B. The Chinese teachings  
about women should be  
improved.
- C. Women should not hold  
government offices.
- D. Women are equal to men in  
all things.

28. To what does it refer in line 23?

- A. empowerment
- B. revolution
- C. tolerance
- D. Islam

29. Which of the following sentences is  
the best resolution of the sentence  
preceded by itself?

Women were intellectuals,  
poets, artists and even had  
point to work.

- A. Women were intellectuals,  
poets, artists and even had  
point to work.
- B. Women were artists, poets,  
law-abiding, and heroic.
- C. Women had point to  
revolution, literature, love,  
and work.
- D. Women were intellectuals,  
poets, artists, and heroic.

Bell  
Ringers

History Daily  
Review

Women were not the only ones to  
have discrimination of their gender. The  
"Bell Ringers" were also victims of  
discrimination. They were not  
allowed to be members of the  
"Bell Ringers" because they were  
not women.

*Gender and Fair Assessment* Warren W. Willingham,Nancy S. Cole,2013-12-16 There have been many important changes in the participation of women and men in American society over the past quarter century Tests play a role in those changes by providing evidence of the diverse achievement and proficiency of women and men They aid the learning process and reflect inequalities in opportunity to learn and participate In addition they provide useful information in considering what alternatives in education and work make most sense for individuals and influence views about groups of students educational programs and a wide range of issues For all of these reasons it is important that tests assess fairly and reflect accurately the ways young people are and are not achieving as well as desired The test performance of women and men is a research topic

of historical interest and has received much attention in recent years Because of this increased interest there is a great deal of new research and data available The purpose of the study presented in this volume was to review this new information with two objectives in mind to clarify patterns of gender difference and similarity in test performance and related achievements and to see what implications those findings might have for fair assessment and as a corollary examine the assessment process as a possible source of gender differences This study is interested in tests used in education to assess developed knowledge and skill In order to gain a broader view of gender similarity and difference the contributors looked at other types of measures and other characteristics of young women and men Their hope is to contribute to a firmer basis for insuring fairness in tests an objective which is particularly important as the field moves increasingly to new forms of assessment in which there is less experience      Resources in Education ,1996-04      *The Software Finder* ,1983      *The Education Index* ,1987      Literature Works: Theme 3.
