13 Leap Test Administration Manual:

From Orthography to Pedagogy Thomas R. Trabasso, John P. Sabatini, Dominic W. Massaro, Robert Calfee, 2014-04-04
From Orthography to Pedagogy pays tribute to Richard L Venezky's work and influence on reading linguistics and computer science. This book catalogs findings related to speech and language development, reading and spelling's role in infant speech development, and the present and future advances in the study and theory of speech and cognitive development. The editors focus on the role technology could play in development and advancement of literacy, speech, and reasoning. Topics include speech directed at infants, speech perception, cognitive development, and spelling, early reading instruction, reading and comprehension, and influences of modern technology and multi-media. Representing a history of study in the field, this book appeals to anyone working in the area of language development as well as those in related fields such as linguistics and developmental psychology.

Kinanthropometry X Mike Marfell-Jones, Tim Olds, 2007-09-12
This book provides an up-to-date review of research and scientific knowledge in the field of kinanthropometry. This subject area is defined as the relationship between human structure and function and is exemplified in studies of growth and development, ergonomics, nutrition, human performance, and health among other applications. This edited collection includes the latest findings in kinanthropometric research, and topics include body composition, athlete morphology and performance, prediction, 3-dimensional analysis, body sizing, sexual dimorphism, virtual anthropometry, somatotype, bone density, body image, and anthropometric pedagogy. Kinanthropometry X offers essential reading for students, academics, and researchers in exercise science, kinanthropometry, physical education, and human sciences.
