FIRST AID GUIDE

How to deal with accidents and emergencies

- Keep calm and look for any dangers to yourself or to the injured person.
- Find out what happened and how.
- How many casualties are there?
- Is there anyone around who can help you?
- Do you need an ambulance?

CHOKING (Infant)

Age less than one year

- If an infant is unable to breathe, cough or cry, and you suspect they have a severe obstruction in their throat: Give up to five back blows between the shoulder blades with the heel of your hand.
- If the obstruction is still present give up to five chest thrusts, with two fingers in the middle of the chest.
- Continue this cycle of five back blows and five chest thrusts until help arrives.
- If the person goes unconscious dial 999 (or 112) for an ambulance and then follow CPR protocols.
- Anyone who has been treated for choking in this way should be advised to see their doctor after the incident.

BURNS & SCALDS

Burns and scalds are among the most common injuries requiring emergency treatment.

- Cool the burn as quickly as possible by placing the affected area under cold running water for at least ten minutes.
- Raise the limb to reduce swelling.
- Cover the injury using a clean pad or cling film, and seek medical advice.
- Dial 999 (or 112) in severe cases.

NOSE BLEED

- Ensure the person is sitting down.
- Advise them to tilt their head forwards to allow the blood to drain from the nostrils.
- Ask the person to pinch the end of their nose.
- After ten minutes, release the pressure.

If the bleeding has not stopped reapply the pressure for up to two further periods of ten minutes.

- If bleeding continues seek medical advice.

RECOVERY POSITION (Infant)

If an infant aged less than one year is unconscious, but breathing, hold them on their side, head tilted – as if you were giving them a cuddle – with their head lower than their tummy.

The Early Childhood Educator for Certificate III aligns with the CHC30113 Certificate III in Early Childhood Education and Care from the CHC Community Services Training Package. This qualification applies to all early childhood educators who work within the requirements of Education and Care Services National Regulations and the National Quality Standard NQS. A Certificate III trained early childhood educator's role supports children's wellbeing, learning and development and the implementation of an approved learning framework either under direct supervision or autonomously. This resource has been designed to support students learning with content and activities at the appropriate Certificate III level of difficulty as well as a Registered Training Organisation's delivery of this valuable qualification. Scope: The Early Childhood Educator for Certificate III provides complete coverage of all fifteen of the required core units of competency of the CHC30113 Certificate III in Early Childhood Education and Care. It also includes three elective units carefully selected to enable an overall effective introduction to the essential skills and knowledge needed to be an effective Certificate III qualified early years practitioner **Improvised Medicine: Providing Care in Extreme Environments, 2nd edition** Kenneth V. Iserson, 2016-01-07 Deliver quality healthcare in the most challenging field conditions. Comprehensive yet compact, practical and enduring. *Improvised Medicine: Providing Care in Extreme Environments* Second Edition is the one book to toss into your bag when going to practice medicine in global disaster or other resource poor settings including theaters of war, regions of civil unrest and economically deprived areas. Full of practical clinical pearls and field tested strategies, this indispensable guide provides detailed instructions on how to work successfully outside of your comfort zone. It demonstrates how to devise effective treatment solutions when the traditional tools, medications, equipment and staff are unavailable or when providing care outside your primary area of expertise. In any crisis, from power failures and computer crashes to floods, tsunamis and earthquakes, knowing how to deal with the unique challenges encountered saves lives and communities. This reference gives you that knowledge and inspires innovative crisis resolution. FROM REVIEWS OF THE FIRST EDITION Dr Iserson has given us a most

remarkable book Many readers may be familiar with David Werner's lay healthworker book *Where There Is No Doctor* this new volume could be titled *Where There Is a Doctor But No Stuff* Drawing from his experience providing care in international wilderness and disaster settings he has compiled an impressive collection of bare bones equipment and work around strategies to provide the best possible care in resource poor settings While presenting many creative examples the purpose of the book is not to offer an exhaustive list of solutions to missing resource challenges but to inspire creativity in readers who may find themselves needing to improvise *Family Medicine* There is a lot of material here and if nothing else it may motivate more people to practice low tech medicine and be willing to go where health care is dependent more on caring than on cost I recommend this book to anyone who must practice in austere environments and it will be in my rucksack when I respond to the next disaster
