2013 Icas Answer Sheet:

HC 504 - The Implications of Scottish Independence on Business; Higher Education and Research; and Postal Services
Great Britain: Parliament: House of Commons: Business, Innovation and Skills Committee, 2014-08-08 A Yes vote for independence will break up the UK single market and in the short term could leave Scottish businesses uncertain of their position in Europe says the Business Innovation and Skills Committee in this report A protracted Scottish negotiation over EU membership and the uncertain investment environment arising from a Yes vote will have a damaging impact on businesses in Scotland as well as other parts of the UK The Committee raises serious concerns that a Yes vote may also leave Scotland facing a currency limbo and in the short term unable to join a sterling currency union and without the prospect of adopting the Euro Also the Scottish Government's stated intention to renationalise the Royal Mail upon achieving independence is an uncosted aspiration bereft of any detail of how it is to be paid for or how it would be done The Committee also fears for the future of the Universal Postal Obligation in an independent Scotland with its continued survival likely to be secured only at significant additional cost On higher education the Committee explored the topics of student fees and UK research collaboration The central plank of the Scottish Government's HE policy to charge tuition fees to students from other parts of the UK was likely to be illegal under EU law The Committee also expressed concerns this policy would result in Scottish universities facing a financial shortfall given the significant income currently received for non domiciled UK students Parliamentary Debates (Hansard).
