ignored by climate crusaders Many of these carbon farming practices are already implemented globally on a scale of millions of hectares These are not minor or marginal efforts but win win solutions that provide food fodder and feedstocks while fostering community self reliance creating jobs protecting biodiversity and repairing degraded land all while sequestering carbon reducing emissions and ultimately contributing to a climate that will remain amenable to human civilization Just as importantly to a livable future these crops and practices can contribute to broader social goals such as women s empowerment food sovereignty and climate justice The Carbon Farming Solution is at its root a toolkit and the most complete collection of climate friendly crops and practices currently available With this toolkit farmers communities and governments large and small can successfully launch carbon farming projects with the most appropriate crops and practices to their climate locale and socioeconomic needs Toensmeier s ultimate goal is to place carbon farming firmly in the center of the climate solutions platform alongside clean solar and wind energy With The Carbon Farming Solution Toensmeier wants to change the discussion impact policy decisions and steer mitigation funds to the research projects and people around the world who envision a future where agriculture becomes the protagonist in this fraught urgent and unprecedented drama of our time Citizens farmers and funders will be inspired to use the tools presented in this important book to transform

degraded lands around the world into productive carbon storing landscapes **Therapeutic Landscapes** Clare Cooper Marcus, Naomi A Sachs, 2013-10-21 This comprehensive and authoritative guide offers an evidence based overview of healing gardens and therapeutic landscapes from planning to post occupancy evaluation It provides general guidelines for designers and other stakeholders in a variety of projects as well as patient specific guidelines covering twelve categories ranging from burn patients psychiatric patients to hospice and Alzheimer s patients among others Sections on participatory design and funding offer valuable guidance to the entire team not just designers while a planting and maintenance chapter gives critical information to ensure that safety longevity and budgetary concerns are addressed Working with Library Collections Hali
