The Art of Classic Planning Nir

Haim Buras,2020-01-28 An accomplished architect and urbanist goes back to the roots of what makes cities attractive and livable demonstrating how we can restore function and beauty to our urban spaces for the long term Nearly everything we treasure in the world s most beautiful cities was built over a century ago Cities like Prague Paris and Lisbon draw millions of visitors from around the world because of their exquisite architecture walkable neighborhoods and human scale Yet a great deal of the knowledge and practice behind successful city planning has been abandoned over the last hundred years not because of traffic population growth or other practical hurdles but because of ill considered theories emerging from Modernism and reactions to it The errors of urban design over the last century are too great not to question The solutions being offered today sustainability walkability smart and green technologies hint at what has been lost and what may be regained but they remain piecemeal and superficial In The Art of Classic Planning architect and planner Nir Haim Buras documents and extends the time tested and holistic practices that held sway before the reign of Modernism With hundreds of full color illustrations and photographs that will captivate architects planners administrators and developers The Art of Classic Planning restores and revitalizes the foundations of urban planning Inspired by venerable cities like Kyoto Vienna and Venice and by the great successes of L'Enfant s Washington Haussmann s Paris and Burnham s Chicago Buras combines theory and a host of examples to arrive at clear guidelines for best practices in classic planning for today s world The Art of Classic Planning celebrates the enduring principles of urban design and invites us to return to building beautiful cities

V-Force Jonathan Glancey,2025-08-07 As World War II came to an end and America s nuclear bombing of Hiroshima and Nagasaki shocked the world it became clear that the nascent Cold War would be as different a conflagration from WWII as that war was from WWI Believing that the UK was extremely vulnerable to nuclear attack it was quickly determined that only the threat of large scale damage from similar weapons could prevent a Soviet attack And thus V Force was born Entered into service between 1955 and 1957 the three models of V class bombers that made up Britain s strategic nuclear strike force the Vickers Valiant Avro Vulcan and Handley Page Victor were modern marvels of machinery Capable of both high and low level attack with their sleek delta wing designs and supremely quick despite the massive bomb loads they carried these aircraft were central tenets of Britain s nuclear weapons development Despite a fall as precipitous as their rise when the Royal Navy took over Britain s nuclear deterrent role in 1968 like a phoenix from the ashes the V bombers enjoyed a second life as conventional bombers the Valiant gaining fame in the Suez Crisis the Victors in the Indonesia Malaysia confrontation and the Vulcans undertook the longest bombing raid in history for Operation Black Buck in the Falklands Campaign of 1982 V Force is both an ode to these most resilient and beautiful of British aircraft and a lens through which to view Britain s Cold War experience Analytical Methods in Petroleum Upstream Applications Cesar Ovalles,Carl E.
