**Global Financial Stability Report, October 2014** International Monetary Fund. Monetary and Capital Markets Department, 2014-10-08 The October 2014 issue finds that six years after the start of the crisis the global economic recovery continues to rely heavily on accommodative monetary policies in advanced economies Monetary accommodation remains critical in supporting economies by encouraging economic risk taking in the form of increased real spending by households and greater willingness to invest and hire by businesses However prolonged monetary ease may also encourage excessive financial risk taking Analytical chapters examine 1 the growth of shadow banking around the globe assessing risks and discussing regulatory responses and calling for a more encompassing macroprudential approach to regulation and for enhanced data provision and 2 how conflicts of interest among bank managers shareholders and debt holders can lead to excessive bank risk taking from society's point of view finding no clear relation between bank risk and the level of executive compensation but that a better alignment of bankers pay with long term outcomes is associated with less risk

**Obama Power** Jeffrey C. Alexander, Bernadette N. Jaworsky, 2014-08-12 What is the source of Obama's power How is it that after suffering a humiliating defeat in the 2010 mid term elections Obama was able to turn the situation around deftly outmaneuvering his opponent and achieving a decisive victory in the November 2012 presidential election In this short and brilliant book Jeffrey Alexander and Bernadette Jaworsky argue that neither money nor demography can explain this dramatic turnaround What made it possible they show was cultural reconstruction Realizing he had failed to provide a compelling narrative of his power the President began forging a new salvation story It portrayed the Republican austerity budget as a sop to the wealthy and Obama as a courageous hero fighting for plain folks against the rich The reinvigorated cultural performance pushed the Tea Party off the political stage in 2011 and Mitt Romney became fodder for the script in 2012 Democrats painted their Republican opponent as a backward looking elitist a Bain capitalist whose election would threaten the civil solidarity upon which democracy depends Real world events can spoil even the most effective script Obama faced monthly unemployment numbers the daunting Bin Laden raid three live debates and Hurricane Sandy The clumsiness of his opponent and his own good fortune helped the President but it was the poise and felicity of his improvisations that allowed him to succeed a second time Converting events into plot points the President demonstrated the flair for the dramatic that has made him one of the most effective politicians of modern times While persuasively explaining Obama's success this book also demonstrates a fundamental but rarely appreciated truth about political power in modern democratic societies namely that winning power and holding on to it have as much to do with the ability to use symbols effectively and

tell good stories as anything else      *The Governance of Credit Rating Agencies* Andrea Miglionico, The global crisis revealed that credit rating agencies CRAs are capable of bringing about potential distortions in the financial sector thereby resulting in a reduction in market confidence which in turn influences negotiations and expectations CRAs need to be held accountable for lack of transparency and inaccurate ratings however the existing regulatory framework does not secure adequate investor protection This book provides a new and important contribution to research in the area at a crucial time in the debate around financial regulation and investment regimes      **Yearbook of International Organizations 2013-2014 (Volumes 1a-1b)**
