**Human Rights in Postcolonial India** Om Prakash Dwivedi, V. G. Julie Rajan, 2016-02-26 This volume looks at human rights in independent India through frameworks comparable to those in other postcolonial nations in the Global South. It examines wide ranging issues that require immediate attention such as those related to disability, violence, torture, education, LGBT, neoliberalism and social justice. The essays presented here explore the discourse surrounding human rights and engage with aspects linked to the functioning of democracy, security and strategic matters and terrorism especially post 9/11. They also discuss cases connected with human rights violations in India and underline the need for a transparent approach and a more comprehensive perspective of India's human rights record. Part of the series Ethics, Human Rights and Global Political Thought, the volume will be an important resource for academics, policy makers, civil society organisations, lawyers and those concerned with human rights. It will also be useful to scholars and researchers of Indian politics, law and sociology.

Businessmen, Clientelism, and Authoritarianism in Egypt Safinaz El Tarouty, 2016-04-29 After the ousting of former Egyptian President Hosni Mubarak in February 2011, much debate surrounded the reasons for the former regime's longevity and its collapse. Here Safinaz El Tarouty provides an original contribution to the study of authoritarianism in Egypt by focusing on the role of businessmen in authoritarian survival. As the regime intensified neoliberal economic reforms that led to social deprivation and frustration among increasing numbers of Egyptian citizens, they co-opted businessmen in order to defuse challenges and buttress the regime, constructing a new political economy of authoritarianism. Extending the existing literature on clientelism, El Tarouty creates a typology of regime-businessmen relations to describe the multiple mechanisms of co-option in the context of economic liberalization. Ultimately, though, these businessmen proved too narrow a constituency to provide legitimacy to the regime and, in fact, formed one of the reasons for its collapse.

**China's Pension Reforms** Ke Meng,2018-09-03 Existing literature has looked at many factors which have shaped Chinese pension reforms As China s pension reform proceeds in an expanding and localising fashion this book argues that there is a pressing need to examine it in the context of China s political institutions and economic transformations The book takes a unique approach by looking at political institutions of the Chinese state and the changing conditions of the Chinese economy which rarely receive proper treatment in the current analysis of China s pension reforms

**The Political Economy and Media Coverage of the European Economic Crisis**

Julien Mercille,2014-08-27 The European economic crisis has been ongoing since 2008 and while austerity has spread over the continent it has failed to revive economies The media have played an important ideological role in presenting the policies of economic and political elites in a favourable light even if the latter s aim has been to shift the burden of adjustment onto citizens This book explains how and why using a critical political economic perspective and focusing on the case of Ireland Throughout Ireland is compared with contemporary and historical examples to contextualise the arguments made The book covers the housing bubble that led to the crash the rescue of financial institutions by the state the role of the European institutions and the International Monetary Fund austerity and the possibility of leaving the eurozone for Europe s peripheral countries Through a systematic analysis of Ireland s main newspapers it is argued that the media reflect elite views and interests and downplay alternative policies that could lead to more progressive responses to the crisis
