**Indonesia's Ascent** C. Roberts,A. Habir,L.

Sebastian,2015-03-10 This volume explores the domestic and transnational considerations associated with Indonesia's ascent referring to its rise in terms of hard and soft power and its likely trajectory in the future The range of contributors analyse economic resources religious harmony security regional relations leadership and foreign policy **Withdrawal** Gregory A. Daddis,2017-09-01 A better war Over the last two decades this term has become synonymous with US strategy during the Vietnam War's final years The narrative is enticingly simple appealing to many audiences After the disastrous results of the 1968 Tet offensive in which Hanoi's forces demonstrated the failures of American strategy popular history tells of a new American military commander who emerged in South Vietnam and with inspired leadership and a new approach turned around a long stalemated conflict In fact so successful was General Creighton Abrams in commanding US forces that according to the better war myth the United States had actually achieved victory by mid 1970 A new general with a new strategy had delivered only to see his victory abandoned by weak kneed politicians in Washington DC who turned their backs on the US armed forces and their South Vietnamese allies In a bold new interpretation of America's final years in Vietnam acclaimed historian Gregory A Daddis disproves these longstanding myths Withdrawal is a groundbreaking reassessment that tells a far different story of the Vietnam War Daddis convincingly argues that the entire US effort in South Vietnam was incapable of reversing the downward trends of a complicated Vietnamese conflict that by 1968 had turned into a political military stalemate Despite a new articulation of strategy Abrams's approach could not materially alter a war no longer vital to US national security or global dominance Once the Nixon White House made the political decision to withdraw from Southeast Asia Abrams's military strategy was unable to change either the course or outcome of a decades long Vietnamese civil war In a riveting sequel to his celebrated Westmoreland's War Daddis demonstrates he is one of the nation's leading scholars on the Vietnam War Withdrawal will be a standard work for years to come **The Abongo Abroad** John V.

Clune,2017-07-19 Blending African social history with US foreign relations John V Clune documents how ordinary people experienced a major aspect of Cold War diplomacy The book describes how military sponsored international travel especially military training abroad and United Nations peacekeeping deployments in the Sinai and Lebanon altered Ghanaian service members and their families during the three decades after independence in 1957 Military assistance to Ghana included sponsoring training and education in the United States and American policymakers imagined that national modernization would result from the personal relationships Ghanaian service members and their families would forge As an act of faith American military assistance policy with Ghana remained remarkably consistent despite little evidence that military education and training in the United States produced any measurable results Merging newly discovered documents from Ghana's armed forces and declassified sources on American military assistance to Africa this work argues that military

sponsored travel made individual Ghanaians outlooks on the world more international just as military assistance planners hoped they would but the Ghanaian state struggled to turn that new identity into political or economic progress **Making History** R.
