2013 June Grade 1economics Memo

Emma Lantschner

2013 June Grade 1economics Memo:

A Chronicle of Echoes Mercedes K. Schneider, 2014-04-22 This book argues that corporate reform is destroying American public education for profit It claims that a few wealthy individuals and organizations are orchestrating this destruction The book investigates and exposes these entities highlighting their role in undermining the democratic institution of public education

The World Bank and the Cold War in Latin America Claudia Kedar, 2025-12-16 Established at the Bretton Woods conference in 1944 the World Bank soon emerged as a central pillar of the postwar order and the world's leading development institution This book provides a comprehensive exploration of the World Bank's pivotal role in the Cold War in Latin America through an examination of its interactions with Argentina one of Latin America's largest economies and a heavy borrower of the World Bank In doing so it unveils the surprisingly complex interplay between the World Bank's bureaucratic goals US administrations and Argentina's efforts to serve its own national interests Drawing on a multi archival corpus of primary sources including newly declassified documents from the World Bank archives the author examines the Bank's often counterintuitive responses to major economic and political challenges posed by Argentina including populism developmentalism economic nationalism authoritarianism human rights violations and the Lost Decade of the 1980s Showing how the World Bank ranged from full alignment with US interests to neutrality and subtle dissent the book reveals the integral influence of the Bank as a Cold War actor Raising vital questions about the role of international organizations in developing countries this book reframes our understanding of the economic Cold War in Latin America and beyond

Class and Group Actions in Arbitration Bernard Hanotiau, Eric A. Schwartz, 2016-09-23 Several decades ago a typical arbitration would involve one claimant against one respondent Over the years more and more cases involve several claimants against several respondents Today one third of all international ICC arbitrations seem to involve multiparty cases multi contract cases involving multiple contracts multiple parties The evolution has continued and the debate today is whether it would be possible for a class of people in the same situation or a group of citizens having the same interest to start one single arbitration procedure as a group or as a class This publication examines the complex issues involved in class or group arbitration on a comparative law basis Is there a place for such proceedings within the framework of the arbitration process Class action procedures as developed in the United States court system and more recently in Canada are almost nonexistent in Europe The European Commission has advocated collective redress as an important means of access to justice but class actions have found little enthusiasm in the Member States The book highlights the lessons which have been learned from the experience of cases in the US and in Europe What does the future hold for class collective and mass arbitrations Are they a marginal phenomenon or has their potential yet to be realized What are possible solutions to the issues that have been encountered Can we expect to see more of such arbitrations in the future Written by arbitrators academics and practitioners this Dossier will provide the answers to these questions and many more

Reflexive Governance in EU Equality Law Emma Lantschner, 2021-10-21 The Covid 19 pandemic has revealed how far we as a European society still are from the proclaimed Union of Equality The book explores how the promise of equal treatment can become a reality and compliance with the EU acquis relating to equality and non discrimination can be improved It studies enforcement and promotion aspects of the two watershed directives of 2000 the Racial Equality Directive 2000 43 EC and the Employment Equality Directive 2000 78 EC through the lens of reflexive governance This governance approach is proposed as having great potential in enhancing the likelihood of sustainability or continuation of reforms in the current candidate countries and EU Member States through its emphasis on reflexive learning processes and the cooperation between EU institutions national authorities and civil society actors In order to deploy this potential there is however a need for more consistent and transparent monitoring both with regard to candidate countries as well as old and new Member States and a reconsideration of the understanding of monitoring as such It should be seen as helping to deconstruct own preference formations and as a possibility to learn from successes and failures in a cooperative and recursive process To work on these lacunae and improve learning and monitoring processes this book identifies indicators that are deduced from the comparative review of the implementation practice of the member states This book is thus a contribution to the existing literature in the fields of Europeanization governance and the right to equality and non discrimination

Dream Hoarders Richard V. Reeves, 2018-05-08 Dream Hoarders sparked a national conversation on the dangerous separation between the upper middle class and everyone else Now in paperback and newly updated for the age of Trump Brookings Institution senior fellow Richard Reeves is continuing to challenge the class system in America In America everyone knows that the top 1 percent are the villains The rest of us the 99 percent we are the good guys Not so argues Reeves The real class divide is not between the upper class and the upper middle class it is between the upper middle class and everyone else The separation of the upper middle class from everyone else is both economic and social and the practice of opportunity hoarding gaining exclusive access to scarce resources is especially prevalent among parents who want to perpetuate privilege to the benefit of their children While many families believe this is just good parenting it is actually hurting others by reducing their chances of securing these opportunities There is a glass floor created for each affluent child helped by his or her wealthy stable family That glass floor is a glass ceiling for another child Throughout Dream Hoarders Reeves explores the creation and perpetuation of opportunity hoarding and what should be done to stop it including controversial solutions such as ending legacy admissions to school He offers specific steps toward reducing inequality and asks the upper middle class to pay for it Convinced of their merit members of the upper middle class believes they are entitled to those tax breaks and hoarded opportunities After all they aren't the 1 percent The national obsession with the super rich allows the upper middle class to convince themselves that they are just like the rest of America In Dream Hoarders Reeves argues that in many ways they are worse and that changes in policy and social conscience are the only way to fix the broken system
