

**Precautions**

Observe the following precautions to ensure safe and proper servicing. These precautions are not described in each individual section.

**SUPPLEMENTAL RESTRAINT SYSTEM (SRS) "AIR BAG" AND "SEAT BELT PRE-TENSIONER"**

The Supplemental Restraint System such as "AIR BAG" and "SEAT BELT PRE-TENSIONER" used along with a seat belt, helps to reduce the risk or severity of injury to the driver and front passenger for certain types of collision. The SRS system composition which is available to NISSAN MODEL B13 is as follows:

- For a front collision:
 

The Supplemental Restraint System consists of driver air bag module (located in the center of the steering wheel), front passenger air bag module (located on the instrument panel on passenger side), front seat belt pre-tensioners, a diagnostic sensor unit, warning lamp, wiring harnesses and spiral cables.
- For a side collision:
 

The Supplemental Restraint System consists of front side air bag module (located in the outer side of front seat), side air bag (cabriole) sensor, diagnostic sensor unit (one of components of air bags for a front collision), wiring harness, warning lamp (one of components of air bags for a frontal collision).

Information necessary to service the system safely is included in the SRS section of this Service Manual.

**WARNING:**

- To avoid rendering the SRS inoperative, which could increase the risk of personal injury or death in the event of a collision which would result in air bag inflation, all maintenance should be performed by an authorized NISSAN dealer.
- Improper maintenance, including incorrect removal and installation of the SRS, can lead to personal injury caused by unintentional activation of the system. For removal of Spiral Cable and Air Bag Module, see the PSS section.
- Do not use electrical test equipment on any circuit related to the SRS unless instructed to in this Service Manual. Spiral cable and wiring harnesses covered with yellow insulation tape other than just before the harness connections or for the complete harness are related to the SRS.

**PRECAUTIONS FOR NVES (NISSAN VEHICLE IMMOBILIZER SYSTEM) — NATE (IF SO EQUIPPED)**

NVES (NATE) will immobilize the engine if someone tries to start it without the registered NVES (NATE) key.

Both of the originally supplied ignition key IDs are NVES (NATE) registered.

The security indicator is located on the instrument panel. The indicator blinks when the ignition switch is in the "ON" or "ACC" position. Therefore, NVES (NATE) warns outsiders that the vehicle is equipped with the anti-theft system.

# 2000 Infiniti I30 Service Repair Manual
