Resources in education ,1984-02 *Research in Education* ,1973 **A Parent's Guide to 4th Grade** Ricki Winegardner,2001 During your initial read of this resource you may find that some of the key points are not yet relevant to your child Imagine if you will reading the owner s manual to your car Initially you may peruse the manual finding that not all of the features or instructions are immediately helpful but as you drive the car for a period of time you may find yourself referring to the manual to find important information Use this book in the same manner Read initially to gain a baseline understanding of what to expect this year then pickup the book throughout the year when you are faced with new questions or difficulties By the end of the fourth grade you may have a book with dog eared pages highlighted passages and favorite nuggets of information Research in Education ,1972 **A Curriculum Guide for Fourth Grade** Sherman Wayne Miller,Weber State College. Leu,California State University, Sacramento,2010 A balanced curriculum in elementary schools has been a topic of controversy for many decades The standards based reform movement evolved out of this controversy Standards based reform was designed to measure students academic achievement by mandating that states implement accountability through annual assessments Then in 2002 with the enactment of the No Child Left Behind Act NCLB accountability transferred from a state wide issue to a federal issue With NCLB states are now mandated to annually assess elementary students nationwide in grades second through sixth in the content areas of reading language arts and mathematics There have been several negative effects on the elementary curriculum as a result of these mandated assessments which among others include an unbalanced curriculum and teachers being pressured into making decisions to allot more time for teaching the assessed content areas and less time for teaching the non assessed content areas history social science art and physical education Concentrating on history social science in particular research has shown that history social science is not only being taught less but is being eliminated in many elementary schools throughout the United States The result of eliminating history social science is an unbalanced curriculum which is unfair to students and teachers alike Curriculum integration is a reasonable solution My curriculum guide addresses the need for a balanced curriculum by integrating history social science and reading Project The curriculum guide is designed for the fourth grade teachers at Gold Oak Elementary Placerville CA who use the

district adopted Scott Foresman History Social Science program Our California in conjunction with the Open Court program Open Court Reading Level 4 It encourages fourth grade teachers to include history social science standards in their curriculum while they teach the mandated reading writing and oral language standards The curriculum guide provides fourth grade teachers with integrated history social science and reading lesson ideas content and activities The activities include reading video and poetry supplemental resource extensions Fourth grade teachers can use these extensions as enrichment for either introducing a topic or extending content knowledge of a unit or lesson The supplemental resource extensions create connections between history social science and reading that will engage students cognitively and help them to retain important history social science content knowledge Sources of Data This project used the fourth grade edition of Scott Foresman s Our California and Open Court s Open Court Reading Level 4 programs to create the integrated connections in the curriculum guide Searches of the ERIC database provided additional resources for research that contributed to the project Conclusions Reached The curriculum guide is designed to help fourth grade teachers deliver a balanced curriculum to their students It offers teachers a variety of instructional materials and supplemental resource extensions to assist them in meeting all their students needs Most important the curriculum guide helps teachers save time when preparing their lessons This will encourage teachers to include history social science into their curriculum and as a result will then prepare their students for history social science classes in middle school
