 Bell,2004 **Breaking Barriers** Brian Cafarella,2021-06-29 The fact college students often struggle in mathematics is not
 new They exhibit a great deal of anxiety dislike and overall disinterest Quantitative data displaying abysmal student success
 rates are widely available and shared This book explores the complexity surrounding the issue of student difficulties in
 community college math Though much quantitative research focuses on the faculty experiences and perspectives regarding
 methods and practices the author puts the focus on students experiences The book presents the results of a study focused on
 students who struggled in mathematics Though their experiences varied they all entered community college with a great deal
 of disgust and anxiety toward mathematics courses and requirements These impressions and attitudes create barriers to
 success However all the students eventually succeeded in fulfilling their college level mathematics requirement The author
 presents these students experiences prior to entering community college what led to both success and failure in their math
 courses and the common themes leading to success and failure Through these student responses the author assists readers
 in gaining a better understanding of the community college student who struggles in math and how to break students
 community college math barriers to success TABLE OF CONTENTS Preface 1 Math is a Four Letter Word 2 The Framework
