

## AN APPLE TODAY

keeps the doldrums away. This manual will show you how to plug in your APPLE II (easy) and be a guide as you learn to program it (also easy). If you are an Old Hand at programming, you will find some new features and conveniences in APPLE BASIC that make programming a lot more fun. If you are a Newcomer to programming, you will also find many features and conveniences in APPLE BASIC that make programming a lot of fun. But, if you are a Newcomer, be warned that programming, though not difficult, can only be learned by *doing*. More will be said on this topic later, but remember—this is a book to be used, not merely perused.

If you purchased your APPLE II from an authorized APPLE dealer, they will be willing to let you set your APPLE II up in their shop, and make sure you know how to set it up at home. If you received it as a gift or through the mail, it is not difficult to hook up—it is as easy as setting up a stereo system and no technical knowledge is needed at all.

If you have not already done so, please take a few minutes to complete and mail your **Owner/Warranty Registration Card**. This Registration Card will register your APPLE II with the factory, give you membership in the **APPLE SOFTWARE BANK**, and include you in the list of APPLE II owners. If you don't send us this card you will not receive any newsletters, information about new accessories for your APPLE II, nor any of the other information that is frequently mailed to APPLE II owners. So please mail in the completed card.
