Data Analysis for Social Science Elena Llaudet,Kosuke Imai,2023 Data analysis has become a necessary skill across the social sciences and recent advancements in computing power have made knowledge of programming an essential component Yet most data science books are intimidating and overwhelming to a non specialist audience including most undergraduates This book will be a shorter more focused and accessible version of Kosuke Imai's Quantitative Social Science book which was published by Princeton in 2018 and has been adopted widely in graduate level courses of the same title This book uses the same innovative approach as Quantitative Social Science using real data and R to answer a wide range of social science questions It assumes no prior knowledge of statistics or coding It starts with straightforward simple data analysis and culminates with multivariate linear regression models focusing more on the intuition of how the math works rather than the math itself The book makes extensive use of data visualizations diagrams pictures cartoons etc to help students understand and recall complex concepts provides an easy to follow step by step template of how to conduct data analysis from beginning to end and will be accompanied by supplemental materials in the appendix and online for both students and instructors [Losing Our Minds](#)

Deborah L. Ruf, 2005 Wouldn't it be a disgrace if we lost the brightest students now attending our nation's schools Dr Deborah L Ruf establishes that there are far more highly gifted children than previously imagined yet large numbers of very bright children are never discovered by their schools Using 78 gifted and highly gifted children as her examples she illustrates five levels of giftedness Parents will be able to estimate which of the five levels of giftedness their child fits by comparing their own child's developmental milestones to those of the children described in the book This book contains practical advice for parents including how to find a school that works for your child Book jacket Psychological Testing Thomas P.
