

# American Revolution

The series of battles fought by the British colonists in America between 1775 and 1783 to achieve independence from Great Britain is known as the American Revolution. The main cause of the revolt against Great Britain was the fact that the British government required the colonists to pay taxes, but there was no colonial representation in the British government. The colonists were expected to obey British laws without any input into those laws or how they were applied. A series of disagreements, protests, and skirmishes eventually led up to the full military conflict between the colonists and the British soldiers in America. The "shot heard round the world," the opening shot of the battles of Lexington and Concord on April 19, 1775, officially marked the beginning of the American Revolutionary War. The victory of the American colonists led to the formation of the United States of America.
