Frederick Douglass

Frederick Douglass was an important figure in American history. He was known for his work as an abolitionist, writer, and speaker. He was born in Talbot County, Maryland around February 14, 1818. Douglass was born an enslaved person and did not have the same rights as free people. He was separated from his mother when he was very young. His enslaver raised him. Despite his difficult situation, Douglass was determined to learn to read and write.

When he was about 12 years old, Douglass began to teach himself how to read. He borrowed books from white children in his neighborhood. He also learned from the Bible and other materials he could find. Douglass believed that knowledge was the key to freedom. He often said that if he could learn to read, he could understand the world better. He felt this would help him fight for his freedom.

In 1838, when Douglass was 20 years old, he escaped enslavement. He made his way north and settled in Massachusetts. He became active in the abolitionist movement. It was focused on ending enslavement in the United States. Douglass traveled around the country, giving speeches about his experience. He also spoke about the importance of freedom for all people. His powerful words inspired many people to join the fight against enslavement.

Douglass also wrote several books. His biography, *Narrative of the Life of Frederick Douglass, an American Slave*, detailed his life and struggles as an enslaved person. It also helped readers understand the harsh realities of enslavement. Douglass continued
