Essays on the Bioeconomic Analysis of Wildlife and Livestock Disease Problems Fang Xie, 2010 [Three Essays on Monetary Business Cycle](#) Won-Kyu Kim, 1993 *Models for Effective Writing* J. Karl Nicholas, James R. Nicholl, 1994
Models for Effective Writing is a rhetorically organized varied and rich collection of writings by student and professional authors. This valuable writing resource focuses on demonstrating the various rhetorical modes such as classification and cause effect. In addition, it contains a sizable argumentation section along with significant coverage of narrative, descriptive, and expository writing. The second edition retains the relaxed style and thoughtful features that made the original instructional content clear and accessible. Within each section, selections are organized in order of increasing difficulty, followed by questions and vocabulary exercises at the end of each section. Separate introductory chapters, *The Reading Process* and *The Writing Process*, are also included to help improve basic reading and writing skills. Uses a new annotated essay, *The Arctic Forest* by Barry Lopez, to illustrate the reading process in Chapter 1. Between the sixth and twentieth centuries, the civil service examinations created and maintained political coherence across the Chinese polity. Preparation for the examinations transformed the lives of literate elites by defining educational standards and disseminating a language that determined elite status. However, as participation in the examinations became central to that status, an intense competition to determine the educational curriculum and the subject matter of the examinations erupted between intellectual and political rivals. The principal goal of this book is to explain the restructuring of the examination field during a critical point in its history: the Southern Song dynasty (1127-1279), which witnessed the increasing domination of the examinations by the Neo-Confucian Learning of the Way movement. By analyzing textbooks, examination questions, and essays, and official and private commentary, Hilde De Weerd examines how occupational, political, and intellectual groups shaped curricular standards and examination criteria, and how examination standards in turn shaped political and intellectual agendas. These questions reframe the debate about the civil service examinations and their place in the imperial order.
