**Economics of the Environment** Robert N. Stavins, 2019 Economics of the Environment Seventh Edition is a compendium of the best most timely articles by a dream team of environmental economists together with an original introductory chapter by the editor. Now in its seventh edition, Economics of the Environment serves as a valuable supplement to environmental economics text books and as a stand alone reference book of key up to date readings from the field. Edited by Robert N. Stavins, the book covers the core areas of environmental economics courses as taught around the world and the included authors are the top scholars in the field. Overall, more than half of the chapters are new to this edition while the rest have remained seminal works.

**Handbook of Special Education** James M. Kauffman, Daniel P. Hallahan, Paige Cullen Pullen, 2017-05-25 The purpose of the Handbook of Special Education is to help profile and bring greater clarity to the already sprawling and continuously expanding field of special education. To ensure consistency across the volume, chapter authors review and integrate existing research, identify strengths and weaknesses, note gaps in the literature, and discuss implications for practice and future research. The second edition has been fully updated throughout to take into account recent changes to federal laws as well as the most current academic research and an entirely new section has been added on research methods in special education.

**The Essence and Measurement of Organizational Efficiency** Tadeusz Dudycz, Grażyna Osbert-Pociecha, Bogumiła Brycz, 2015-09-29 This book offers a collection of studies on various organizations' efficiency criteria for evaluating efficiency together with tools and methods for measuring efficiency. The articles included present an interdisciplinary look at efficiency, its essence and the principles of its measurement. They represent an attempt to seek the conceptual boundaries of efficiency, i.e. to clarify this abstract and multidimensional concept including its relation to innovation, competitiveness and intellectual capital. The contributions also identify a broad spectrum of conditions for achieving efficiency in various types of organizations and systems, e.g. health care, hybrid organizations, non-profit organizations, representing various industries, e.g. insurance, banking, tourism, agriculture.

**Measuring Museum Impact and Performance** John W. Jacobsen, 2016-03-15 Based on extensive research and decades of experience museum analyst and planner John W. Jacobsen provides both the theoretical underpinnings and the operational pragmatics of measuring any museum's intentional impact and performance by using 1 025 indicators drawn from 51 expert sources. Measuring Museum Impact and Performance: Theory and Practice provides museum professionals internationally with a clear, very open process that will improve their museum's value and performance by selecting indicators that monitor whether they are realizing their desired public, private, personal and institutional values. The book is not prescriptive but liberating as the framework recognizes that each museum needs to decide on its own purposes and priorities. The book is organized in two parts: Part 1 Theory is scholarly and builds on the museum field's rich literature and Part 2 Practice provides step by step methods for any museum to set up its own dashboard of prioritized impact and performance indicators. Substantive attachments include the

Marionneau, Janne Nikkinen, Jim Orford, Robin Room, Ingeborg Rossow, 2018-12-06 Commercial gambling is a recent historical phenomenon. It has developed into a profitable industry that supplies a range of recreational activities to its customers and is a significant way of collecting money from players to distribute to companies, state budgets and other beneficiaries. Many of these are civil society organizations using the money for producing services in sports, culture, social work and health care. However, gambling can also develop into pathological behaviour. Using a public interest framework, this book discusses the policies that will best serve the public good and minimize individual and collective harms. After describing the historical context of the gambling and the current global burden of the activity, available methods of regulating the industry are evaluated using the available scientific evidence. By analysing the effectiveness of gambling policies and their alignment with the public interest, the epidemiological obstacles to successful regulation are considered in detail. There is good evidence for the effectiveness of restrictions on availability and access but preventing gambling related harm is not possible without limiting the overall volume of the activity and hence the profits for the gambling industry and governments. Taking an international approach, this book delivers a comprehensive review of the epidemiological evidence documenting the harmful effects of gambling on individuals, communities and societies. Essential reading for policymakers, social and behavioural scientists in gambling research and public health researchers. *Setting Limits* examines a global view of an emerging epidemic of gambling problems.

The Field of Water Policy Franck Poupeau, Brian O'Neill, Joan Cortinas Muñoz, Murielle Coeurdray, Eliza Benites-Gambirazio, 2019-12-06 Bringing together the analysis of a diverse team of social scientists, this book proposes a new approach to environmental problems. Cutting through the fragmented perspectives on water crises, it seeks to shift the analytic perspectives on water policy by looking at the social logics behind environmental issues. Most importantly, it analyzes the dynamic influences on water management as well as the social and institutional forces that orient water and conservation policies. The first work of its kind, *The Field of Water Policy* Power and Scarcity in the American Southwest brings the tools of Pierre Bourdieu's field sociology to bear on a moment of environmental crisis with a study of the logics of water policy in the American Southwest, a region that allows us to see the contest over the management of scarce resources in a context of lasting drought. As such, it will appeal to scholars in the social and political sciences with interests in the environment and the management of natural resources.
