The third chapter gives an insight into the reasons for inequality of salaries between women and men such as educational segregation that later leads to the occupational segregation negotiating skills of women or lack of those skills parental leave glass ceiling glass escalator and sticky floor correlation lack of affordable childcare the way work is valued When it comes to the solutions chapter three shows that more legal regulations pay transparency equalising family leave increasing female salaries and companies committing to gender balanced leadership could help close the gap Apart from the discourse analysis the questionnaire was conducted to find out and show diverse people s opinions in the author s environment family friends co workers neighbours fellow students on the gender pay gap For example what they think the main reasons are solutions when could the gender wage gap end to what extent do they agree or disagree with the given statements Another goal was to explain gender in equality in their workplace and compare survey results with those in the first part of the research It can be then seen that the research design consists of both qualitative and quantitative analysis the so called mixed methods
