**Park Science** ,2012 *Rewilding European Landscapes* Henrique M. Pereira,Laetitia M. Navarro,2015-05-04 Some European lands have been progressively alleviated of human pressures particularly traditional agriculture in remote areas This book proposes that this land abandonment can be seen as an opportunity to restore natural ecosystems via rewilding We define rewilding as the passive management of ecological successions having in mind the long term goal of restoring natural ecosystem processes The book aims at introducing the concept of rewilding to scientists students and practitioners The first part presents the theory of rewilding in the European context The second part of the book directly addresses the link between rewilding biodiversity and habitats The third and last part is dedicated to practical aspects of the implementation of rewilding as a land management option We believe that this book will both set the basis for future research on rewilding and help practitioners think about how rewilding can take place in areas under their management

**The Nocturnal City** Robert Shaw,2018-02-02 Night is a foundational element of human and animal life on earth but its interaction with the social world has undergone significant transformations during the era of globalization As the economic activity of the daytime city has advanced into the night other uses of the night as a time for play for sleep or for escaping oppression have come increasingly under threat This book looks at the relationship between night and society in contemporary cities It identifies that while theories of planetary urbanization have traced the spatial spread of urban forms the temporal expansion of urban capitalism has been less well mapped It argues that as a key part of planetary being understanding what goes on at night in cities can add nuance to debates on planetary urbanization A series of practices and spaces that we encounter in the night time city are explored These include the maintenance and repair of infrastructure the aesthetics of the urban night nightlife and the night

time economy the home at night and the ecologies of the urban night Taking these forward the book will ask whether the night can reveal some of the boundaries to what we call the urban in a world of cities and will call for a revitalized and enhanced nightology to study these limits **Current Trends in Landscape Research** Lothar Mueller, Frank Eulenstein, 2019-11-13
