Magical Uses for Magnets Draja Mickaharic,2004-10-01 From the latches on our kitchen cabinets to the magnetic strips on our credit cards we take magnetic forces for granted every day Magnets are a relatively new technology although people have remarked on naturally occurring magnets or loadstones for hundreds of years Mickaharic in his inimitable no nonsense style relates the history and folklore of magnets and how they work and explains several practical uses including improving fuel combustion descaling water and charging water for better plant growth Most of his book is devoted to explaining how the attractive power of magnets can be harnessed in spells and vibrational healing Mickaharic includes instructions on spells for attracting a job a lover or money making devices to magnetize oils and potions for increased potency making magnetic magic wands using magnets with sigils and seals making a Mesmer board for vibrational healing constructing a device for distant covert communication working with energy rods and aura cleansing with magnets Mickaharic also includes an interesting biography of the flamboyant Antoine Mesmer that rectifies the misunderstandings around his so called discovery of animal magnetism and initiation of the practice of hypnotism **Longman Active Science**

6 Narayanan Vidhu,2009-09 **Magnetism, Mesmerism, Hypnotism** Helena Petrovna Blavatsky,2018-02-21 Magnetism is the intangible Spirit and ultimate essence of every atom whether pertaining to animate or inanimate organic or inorganic substance It is invisible to all but the eyes of another immortal Spirit Mesmerism is a lesser branch of Magic and as old as man Magic is indissolubly blended with the religion of every country and is inseparable from its origin Magnetism is the key to the mystery of man s nature and to Occultism or Eastern Magic It prolongs life and heals the sick much better than modern medicine can ever do The Magnetiser s Vital Force intensely concentrated by the his will pours out of his system into the patient s Afterward he can then use the sun to make good of the loss of vitality and rebalance his prana Magnetism has been studied in the temples of ancient Egypt and Greece and mastered as it may never hope to be mastered in our age of profound idiocy Full health is only possible when there is a perfect magnetic equilibrium in one s system The therapist heals simply by restoring magnetic balance in his patient by the force of his benevolent desire and will The chief agent in any

therapeutic operation is the Human Will plus dominion over the Elemental Spirits But the will of a selfish operator is more likely to injure rather than heal Though Christians practice Mesmerism by another name Christian law and societies with their boasted civilization become with every day more like unto whited sepulchres which indeed appear beautiful outward but are within full of dead men s bones and befoulment Mesmerism is key to the world s psychological sciences from the remotest antiquity down to our time In Mesmerism the curative agency is the animal aura force or fluid in one person by means of which a peculiar action is set up in the physical system of another The power of the mantram is occult sound through which the adept commands the elemental forces of nature But mantram ignorantly employed can be a treacherous weapon whose mystical power has caused it to turn and stab the user Astrology Mesmerism and Homeopathy are far more scientific and true than the scientists of gross matter could ever imagine The magnetic fluid projected by a living human body is Life itself Indeed it is the same life atoms that a man in a blind passion throws off unconsciously though he does it quite as effectively as a Mesmeriser who transfers them from himself to any object consciously and under the guidance of his will The process of Hypnotism is a purely mechanical one i e the fixing of the eyes on some bright spot a metal or a crystal The eye serves as a medium between that bit of metal or crystal and the brain and attunes the molecular vibrations of the nervous centres of the latter into unison with the vibrations of the bright object held It is this unison that produces the hypnotic state In Mesmerism i e the hypnotization by preliminary passes it is the will of the operator himself that acts upon the nervous system of the patient And it is again through the vibrations only atomic not molecular produced by that act of energy called will in the ether of space therefore on quite a different plane that the super hypnotic state i e suggestion etc is induced The source of the vital essence of Mesmerism or Animal Magnetism was located by the ancients between the earth and the starry sky It is the Akasha tattva of the Indians personified by the breath of Cybele the Anatolian mother goddess adopted and adapted by Greek colonists of Asia Minor Between Mesmerism and Hypnotism there is an abyss the one is beneficent the other maleficent Hypnotism is produced by the withdrawal of the nervous fluid from the capillary nerves which being like the sentries that keep the doors of our senses opened are anaesthetized and get closed
