Same size diameter as the 3G, but the 4G has a black metallic cover on the rear. Uses the same plug as the 3G series alternator. We believe the 3G is the superior alternator, but the 4G series comes in several unique mounting styles which aren't compatible with 3G series alternators. The 4G series side mount looks visually similar to the 3G series Side Mount, but the mounting holes do not line up.
