Most accidents that involve product operation, maintenance and repair are caused by failure to observe basic safety rules or procedures. An accident can often be avoided by recognizing potentially hazardous situations before an accident occurs. A person must be alert to potential hazards. The person should avoid, if possible, the necessary testing, tools and parts to perform these functions properly. Improper operation, lubrication, maintenance or repair of this product can be dangerous and could result in injury or death.

The meaning of this safety alert symbol is as follows:

**Attention: Become Alert! Your Safety is Involved.**

Operations that may cause product damage are identified by "NOTICE" labels on the product and in the publication.

Caterpillar cannot anticipate every possible circumstance that might involve a potential hazard. The warnings in this publication and on the product are, therefore, not all inclusive. If a tool, procedure, work method or operating technique that is not specifically recommended by Caterpillar is used, you must satisfy yourself that it is safe for you and for others. You should also assure that the product will not be damaged or be made unsafe by the operation, lubrication, maintenance or repair procedures that you choose.

The information, specifications, and illustrations in this publication are on the basis of information that was available at the time that the publication was written, the specifications, torque, pressures, measurements, adjustments, illustrations, and other items can change at any time. These changes can affect the service that is given to the product. Obtain the complete and most current information before you start any job. Caterpillar dealers have the most current information available. For a list of the most current publication form numbers available, see the Service Manual Contents Telephone: 979-31367.
