Refugee Learner Experiences. A Case Study of Zimbabwean Refugee Children Lawrence Meda, 2017-09 This study is a presentation of Zimbabwean refugee learner experiences Children escaped political persecution and economic problems which affected Zimbabwe in the year 2008 Many of these children were abused and witnessed traumatic experiences their close relatives and neighbours being executed in cold blood This study was guided by three critical questions i who are the Zimbabwean refugee learners ii what were Zimbabwean refugee learners migration experiences and iii what were Zimbabwean refugee learners school experiences The study employed Bronfenbrenner's Social Ecological Model as its overarching theoretical framework Each stage of the refugee experience was described at each point in time *Zimbabwe: Mired in Transition* Masunungure, Eldred V., Shumba, Jabusile M., 2014-04-03 Three years after the advent of Zimbabwe's Inclusive Government in February 2009 the country still awaits the elections that people hope will lead to a more enduring political settlement Zimbabwe Mired in Transition reviews the experience of recent years assesses the progress that has been made What is the public mood and how has it changed What steps have been taken to reform the media How important is a new constitution Although the economy has stabilised to some extent with the adoption of a multi currency regime industrial and agricultural production are depressed and investment inflows are limited what spaces exist for fiscal reform Are local authority structures and the state bureaucracy equipped to handle the tasks that will be asked of them In terms of two important areas the book extends its analysis further back than 2009 First is the issue of emigration Estimates of the number of Zimbabweans in the diaspora range from three to four million what impact is this having on national development and to what extent might the trend of migration be reversed The second concerns young people the chapter on which concludes We already have a lost generation those who were once called the born frees Unless positive changes are made we will still have another This collection of eleven essays examines in detail some of the pressing questions which Zimbabweans must ask as they chart a way forward *Regime and Education in Zimbabwe* Bekithemba Dube, Albert Mufanechiya, 2024-06-10 This collection focuses on the post independence educational development in Zimbabwe It shows how the ZANU PF regime has presided over the demise of education and covers a wide range of topics such as violence against teachers poor salaries student activism minority languages and curriculum innovations This volume argues that the regime has used education as a tool for repression Curriculum innovations introduced and implemented in Zimbabwe have little to do with improving the performance of the learners and more to do with stopping teachers from pushing the regime change agenda Consequently this has resulted in a nation in crisis marked with high turnover poor economy and mass exodus of teachers and learners The contributors to this volume make various suggestions which could recenter education towards addressing the experiences of the learners as opposed to being used as a tool to push repression and thwart democracy **Bulletin of the Atomic Scientists** ,1983-11 **AF Press Clips** ,1981 Moto ,1999 **Zimbabwe**
