Bureau of Land Management, 1980      *Subject Guide to Books in Print* , 1997      **Paperbound Books in Print** , 1991      *Books in Print* , 1991      **The Case Against College** Caroline Bird, 1975 Caroline Bird who has an uncanny knack for spotting trends in our society far ahead of the crowd in this book attacks the national myth that every 18 to 22 year old American should go to college Parents and students aren't getting their money's worth she frankly says and proceeds to dig up into the truth about college as a consumer expenditure Is it worth it she asked in interviews with large numbers of reluctant students financially pinched parents disillusioned employers and college teachers and administrators She has discovered a mammoth credibility gap between what everyone expects college to do and what it actually can deliver Very few people really think about it primarily as a place for scholarly achievement Parents send their children to college to find a vocation or acquire training that will enable them to succeed in careers but a lot of them are being trained for jobs that don't exist Students go to college to find themselves and get away from home but drop out in large numbers for the same reason employers require a college diploma for jobs that do not require college training because it is a cheap way to screen applicants and the diploma itself is becoming a credential that signifies very little College trustees and administrators have to market their product like soap in order to fill up empty classrooms and dormitories yet the evidence mounts that college graduates do not automatically make more money get more satisfying jobs or lead richer lives And for some young people college can be a personal disaster This book will be challenged but it is not an anti intellectual assault on learning In fact embattled educators fervently support Ms Bird when she maintains that too many young people are forced into the vast detention pen of studentry in order to keep them off the labor market and out of their parents' hair At 5 000 dollars plus per

annum college is a disastrously expensive answer to that problem What else is there for young people to do Ms bird provides a rich array of alternatives In an extensive resource section she cites the successful experiences of countless young people who have taken other than the traditional route before during and instead of college She also includes a national list of names and addresses of persons and organizations that will help a young person in finding an alternative solution This is a book for all parents whether their children are of college age today or won t be ready for many years Caroline Bird is the author of the landmark books *The Invisible Scar* and *Born Female* as well as many magazine articles A nationally popular lecturer she lives in Poughkeepsie New York with her husband writer Tom Mahoney and their son John     *Model Railroad Craftsman* ,1986     *The Martindale-Hubbell Law Directory* ,1999
