Alinco DJ-VX50T VHF/UHF Hand- held Transceiver

*Reviewed by Steve Ford, WB8IMY
wb8imy@arrl.net*

The Alinco DJ-VX50T is a dual-band (2-meter and 70-centimeter) FM transceiver that is designed to be a serious contender in the lower-cost handheld market. It sets itself apart from the competition in several ways, beginning with its rugged construction. The radio is housed in a dense ABS plastic case with a textured surface to minimize slippage. With the 1,800 mAh Li-ion battery attached, the DJ-VX50T has a hefty, almost heavy feel.

As I examined the exterior, I noticed the external microphone and speaker ports were covered by a shield that you can only open by removing a screw. The robust shield is sealed with a gasket and present because the DJ-VX50T is water- and dustproof, carrying an Ingress Protection (IP) rating of 67. The first number designates protection against solid objects, such as dust and sand. This number can range from 0, meaning no protection, to 6, meaning 100% protection. The second number rates protection against liquids. It ranges from 0 to 8. So, the DJ-VX50T is 100% protected against solid objects, and it has been tested to work after being immersed under a meter of water, which earns the 7 — not completely waterproof, but close. I couldn't bring myself to dunk the radio in a bucket to verify the rating. I'll take Alinco's word for it.

The DJ-VX50T is supplied with the usual flexible rubber antenna and a stand-up battery charger. The charger is well designed and highly convenient. To charge the battery, just place it into the charging cradle. After a few hours — four at most — you're good to go. During the time I was using the DJ-VX50T, a full charge seemed adequate for about 24 hours of normal operating that included a lot of listening time. Of course, the battery life depends greatly on how much transmitting you are doing.

Exploring the DJ-VX50T

I think the first thing most amateurs do when they encounter a new handheld transceiver is turn it on. To do so, they go searching for the POWER button, which is often on the side or front of the radio. On the DJ-VX50T the power on/off function is part of the volume knob. You just give the knob a twist and the 1¼ x ½ inch amber display lights up (there are two other selectable color settings). While the display shown in Figure 1 isn't overly large, I found it easy to read under all lighting conditions.

for any positive integer n show that $\sum_{d|n} d = \sigma(n)$ - Dec 28 2022

web looking at this intuitively firstly we note that $\sum_{d|n} d = \sum_{d|n} n/d = \sum_{d|n} n \cdot \tau(n/d) = \sum_{d|n} n \cdot \tau(n/d)$ so now we are summing the divisors d of n each divisor being counted with multiplicity $\tau(n/d)$ so you just have to persuade yourself that this multiplicity is appropriate
