

## Posts

In posts, the brand elements (rings, brand claim, colours, typography, image style, layout structure, icons and animation) are used as described in the Basics chapter. Content is designed in accordance with the Audi Brand Appearance: high-quality and understated as well as authentic and self-confident.

For video posts, the appropriate motion branding needs to be used. Depending on the length of the post, either the opener or the branding short version is used. To ensure the implementation is CI-compliant, the Motion Branding software should be used.
